Plan No. 2 of 1978, §102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred functions vested by statute in Civil Service Commission and Chairman thereof to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1–102 of Ex. §4743. Grants to State and local governments for training

(a) Amount of grants; executive certification; use restrictions; uses for non-Federal share; personnel training and education programs: innovation and diversity in development and execution

If in its judgment training is not adequately provided for under grant-in-aid or other statutes, the Office is authorized to make grants to State and general local governments for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs, on the certification of the Governor of that State, or the mayor or chief executive officer of the general local government, that the programs are consistent with the applicable principles set forth in clauses (1)–(6) of the third paragraph of section 4701 of this title, to train and educate their professional, administrative, and technical employees and officials. Such grants may not be used to cover costs of full-time graduate-level study, provided for in section 4745 of this title, or the costs of the construction or acquisition of training facilities. The State and local government share of the cost of developing and carrying out training and education plans and programs may include, but shall not consist solely of, the reasonable value of facilities and of supervisory and other personal services made available by such governments. The authority provided by this section shall be employed in such a manner as to encourage innovation and allow for diversity on the part of State and local governments in developing and carrying out training and education programs for their personnel.

(b) Application; time of making; information; terms and conditions; waiver; development costs

An application for a grant from a State or general local government shall be made at such time or times, and shall contain such information, as the Office may prescribe. The Office may make a grant under subsection (a) of this section, only if the application therefor meets requirements established by this subsection unless any requirement is specifically waived by the Office. Such grant to a State, or to a general local government under subsection (c) of this section, may cover the costs of developing the program covered by the application. The program covered by the application shall—

(1) provide for designation, by the Governor or chief executive authority, of the State office that will have primary authority and responsibility for the development and administration of the program at the State level;

(2) provide, to the extent feasible, for coordination with relevant training available under or supported by other Federal Government programs or grants;

(3) provide for training needs of the State government and of local governments in that State;

(4) provide, to the extent feasible, for intergovernmental cooperation in employee training matters, especially within metropolitan or regional areas; and

(5) provide assurance that the making of a Federal Government grant will not result in a reduction in relevant State or local government expenditures or the substitution of Federal funds for State or local funds previously made available for these purposes.

(c) Population served; amount of grants; executive certification; State grant, conditions; terms and conditions; waiver

A grant authorized by subsection (a) of this section may be made to a general local government, or a combination of such governments, that serve a population of fifty thousand or more, for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs or projects, on the certification of the mayor(s), or chief executive officer(s), of the general local government or combination of local governments that the programs or projects are consistent with the applicable principles set forth in clauses (1)–(6) of the third paragraph of section 4701 of this title to train and educate their professional, administrative, and technical employees and officials. Such a grant may not be made—

(1) if, at the time of submission of an application, the State concerned has an approved plan which, with the agreement of the particular local government concerned, provides for strengthening one or more aspects of training in that local government, unless the local government concerned has problems which are not met by the previously approved plan and for

which, with the agreement of the State government concerned with respect to those aspects of training covered in the approved plan, it is submitting an application; or

(2) after the State concerned has a statewide plan which has been developed by an appropriate State agency designated or established pursuant to State law which provides such agency with adequate authority, administrative organization, and staffing to develop and administer such a statewide plan, and to provide technical assistance and other appropriate support in carrying out the local components of the plan, and which provides procedures insuring adequate involvement of officials of affected local governments in the development and administration of such a statewide plan, unless the local government concerned has special, unique, or urgent problems which are not met by the approved statewide plan and for which it submits an application for funds to be distributed under section 4766(a) of this title.

Upon the request of a Governor or chief executive authority, a grant to a general local government or combination of such governments in that State may not be made during a period not to exceed ninety days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later: *Provided*, That the request of the Governor or chief executive authority indicates that he is developing a plan under (1) above, or during a period not to exceed one hundred and eighty days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later, provided the request of the Governor or chief executive authority indicates that he is developing a statewide plan under (2) above. To be approved, an application for a grant under this subsection must meet requirements similar to those established in subsection (b) of this section for State applications, unless any such requirement is specifically waived by the Office, and the requirements of subsection (d) of this section. The Office may make grants to general local governments, or combinations of such governments that serve a population of less than fifty thousand if it finds that such grants will help meet essential needs in programs or projects of national interest and will assist general local governments experiencing special needs for personnel training and education related to such programs or projects.

(d) Gubernatorial review of application; disapproval explanation

An application to be submitted to the Office under subsection (c) of this section shall first be submitted by the general local government or combination of such governments to the Governor for review, comments, and recommendations. The Governor may refer the application to the State office designated under subsection (b)(1) of this section for review. Comments and recommendations (if any) made as a result of the review and a statement by the general local government or combination of such governments that it has considered the comments and recommendations of the Governor shall accompany the application to the Office. The application need not be accompanied by the comments and recommendations of the Governor if the general local government or combination of such governments certifies to the Office that the application has been before the Governor for review and comment for a period of sixty days without comment by the Governor. An explanation in writing shall be sent to the Governor of a State by the Office whenever the Office does not concur with recommendations of the Governor in approving any local government applications.

§4766. Distribution of grants

(a) State and local government allocations; equitable distribution

The Office shall allocate 20 per centum of the total amount available for grants under this chapter in such manner as will most nearly provide an equitable distribution of the grants among States and between State and local governments, taking into consideration such factors as the size of the population, number of employees affected, the urgency of the programs or projects, the need for funds to carry out the purposes of this chapter, and the potential of the governmental jurisdictions concerned to use the funds most effectively.

(b) Weighted formula; minimum allocation; reallocation; "State" defined

(1) The Office shall allocate 80 per centum of the total amount available for grants under this chapter among the States on a weighted formula taking into consideration such factors as the size of population and the number of State and local government employees affected.

The Office shall determine the categories of employees and expenditures to be included or excluded, as the case may be, in the number of employees and amount of expenditures. The minimum allocation for meeting needs of local governments in each State (other than the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands) shall be 50 per centum of the amount allocated for the State under paragraph (1) of this subsection.

(3) The amount of any allocation under paragraph (2) of this subsection which the Office determines, on the basis of information available to it, will not be used to meet needs for which allocated shall be available for use to meet the needs of the State government or local governments in that State, as the case may be, on such date or dates as the Office may fix.

(4) The amount allocated for any State under paragraph (1) of this subsection which the Office determines, on the basis of information available to it, will not be used shall be available for reallocation by the Office from time to time, on such date or dates as it may fix, among other States with respect to which such a determination has not been made, in accordance with the formula set forth in paragraph (1) of this subsection, but with such amount for any of such other States being

reduced to the extent it exceeds the sum the Office estimates said State needs and will be able to use; and the total of such reductions shall be similarly reallocated among the States whose proportionate amounts were not so reduced.

(5) For the purposes of this subsection, "State" means the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, and the Virgin Islands.

(c) Payment limitation

Notwithstanding the other provisions of this section, the total of the payments from the appropriations for any fiscal year under this chapter made with respect to programs or projects in any one State may not exceed an amount equal to 12½ per centum of such appropriation.

(a) The Secretary of Housing and Urban Development, in consultation with the Secretary of Health and Human Services, shall develop and carry out a demonstration and research program to determine the nature and extent of the problem of lead based paint poisoning in the United States, particularly in urban areas, including the methods by which the lead based paint hazard can most effectively be removed from interior surfaces, porches, and exterior surfaces of residential housing to which children may be exposed.

(b) The Chairman of the Consumer Product Safety Commission shall conduct appropriate research on multiple layers of dried paint film, containing the various lead compounds commonly used, in order to ascertain the safe level of lead in residential paint products. No later than December 31,

1974, the Chairman shall submit to Congress a full and complete report of his findings and recommendations as developed pursuant to such programs, together with a statement of any legislation which should be enacted or any changes in existing law which should be made in order to carry out such recommendations.

STATUTORY NOTES AND RELATED SUBSIDIARIES

CHANGE OF NAME

"Secretary of Health and Human Services" substituted for "Secretary of Health, Education, and Welfare" in subsec. (a) pursuant to section 509(b) of Pub. L. 96–88, which is classified to section 3508(b) of Title 20, Education.

§4822. Requirements for housing receiving Federal assistance

(a) General requirements

(1) Elimination of hazards

The Secretary of Housing and Urban Development (hereafter in this section referred to as the "Secretary") shall establish procedures to eliminate as far as practicable the hazards of lead based paint poisoning with respect to any existing housing which may present such hazards and which is covered by an application for mortgage insurance or housing assistance payments under a program administered by the Secretary or otherwise receives more than \$5,000 in project-based assistance under a Federal housing program. Beginning on January 1, 1995, such procedures shall apply to all such housing that constitutes target housing, as defined in section 4851b of this title, and shall provide for appropriate measures to conduct risk assessments, inspections, interim controls, and abatement of lead-based paint hazards. At a minimum, such procedures shall require—

(A) the provision of lead hazard information pamphlets, developed pursuant to section 2686 of title 15, to purchasers and tenants;

(B) periodic risk assessments and interim controls in accordance with a schedule determined by the Secretary, the initial risk assessment of each unit constructed prior to 1960 to be conducted not later than January 1, 1996, and, for units constructed between 1960 and 1978—

(i) not less than 25 percent shall be performed by January 1, 1998;

(ii) not less than 50 percent shall be performed by January 1, 2000; and

(iii) the remainder shall be performed by January 1, 2002;

(C) inspection for the presence of lead-based paint prior to federally-funded renovation or rehabilitation that is likely to disturb painted surfaces;

(D) reduction of lead-based paint hazards in the course of rehabilitation projects receiving less than \$25,000 per unit in Federal funds;

(E) abatement of lead-based paint hazards in the course of substantial rehabilitation projects

receiving more than \$25,000 per unit in Federal funds;

(F) where risk assessment, inspection, or reduction activities have been undertaken, the provision of notice to occupants describing the nature and scope of such activities and the actual risk assessment or inspection reports (including available information on the location of any remaining lead-based paint on a surface-by-surface basis); and

(G) such other measures as the Secretary deems appropriate.

(2) Additional measures

The Secretary may establish such other procedures as may be appropriate to carry out the purposes of this section.

(3) Disposition of federally owned housing

(A) Pre-1960 target housing

Beginning on January 1, 1995, procedures established under paragraphs (1) and (2) shall require the inspection and abatement of lead-based paint hazards in all federally owned target housing constructed prior to 1960.

(B) Target housing constructed between 1960 and 1978

Beginning on January 1, 1995, procedures established under paragraphs (1) and (2) shall require an inspection for lead-based paint and lead-based paint hazards in all federally owned target housing constructed between 1960 and 1978. The results of such inspections shall be made available to prospective purchasers, identifying the presence of lead-based paint and lead-based paint hazards on a surface-by-surface basis. The Secretary shall have the discretion to waive the requirement of this subparagraph for housing in which a federally funded risk assessment, performed by a certified contractor, has determined no lead-based paint hazards are present.

(C) Budget authority

To the extent that subparagraphs (A) and (B) increase the cost to the Government of outstanding direct loan obligations or loan guarantee commitments, such activities shall be treated as modifications under section 661c(e) of title 2 and shall be subject to the availability of appropriations. To the extent that paragraphs (A) and (B) impose additional costs to the Resolution Trust Corporation and the Federal Deposit Insurance Corporation, its requirements shall be carried out only if appropriations are provided in advance in an appropriations Act. In the absence of appropriations sufficient to cover the costs of subparagraphs (A) and (B), these requirements shall not apply to the affected agency or agencies.

(D) Definitions

For the purposes of this subsection, the terms "inspection", "abatement", "lead-based paint hazard", "federally owned housing", "target housing", "risk assessment", and "certified contractor" have the same meaning given such terms in section 4851b of this title.

(4) Definitions

For purposes of this subsection, the terms "risk assessment", "inspection", "interim control", "abatement", "reduction", and "lead-based paint hazard" have the same meaning given such terms in section 4851b of this title.

(b) Measurement criteria

The procedures established by the Secretary under this section for the risk assessment, interim control, inspection, and abatement of lead-based paint hazards in housing covered by this section shall be based upon guidelines developed pursuant to section 4852c of this title.

(c) Inspection requirements

The Secretary shall require the inspection of all intact and nonintact interior and exterior painted surfaces of housing subject to this section for lead-based paint using an approved x-ray fluorescence analyzer, atomic absorption spectroscopy, or comparable approved sampling or testing technique. A

certified inspector or laboratory shall certify in writing the precise results of the inspection. If the results equal or exceed a level of 1.0 milligrams per centimeter squared or 0.5 percent by weight, the results shall be provided to any potential purchaser or tenant of the housing. The Secretary shall periodically review and reduce the level below 1.0 milligram per centimeter squared or 0.5 percent by weight to the extent that reliable technology makes feasible the detection of a lower level and medical evidence supports the imposition of a lower level. The requirements of this subsection shall apply as provided in subsection (d).

(d) Abatement required

(1) Transitional testing and abatement in public housing receiving modernization assistance

In the case of public housing assisted with capital assistance provided under section 1437g of this title, the Secretary shall require the inspection described in subsection (c) for—

(A) a random sample of dwellings and common areas in all public housing projects assisted under such section; and

(B) each dwelling in any public housing project in which there is a dwelling determined under subparagraph (A) to have lead-based paint hazards, except that the Secretary shall not require the inspection of each dwelling if the Secretary requires the abatement of the lead-based paint hazards for the surfaces of each dwelling in the public housing project that correspond to the surfaces in the sample determined to have such hazards under subparagraph (A).

The Secretary shall require the inspection of all housing subject to this paragraph in accordance with the modernization schedule. A public housing agency may elect to test for lead-based paint using atomic absorption spectroscopy and may elect to abate lead-based paint and dust containing lead under standards more stringent than that in subsection (c), including the abatement of lead-based paint and dust which exceeds the standard of lead permitted in paints by the Consumer Product Safety Commission under this chapter, and such abatement shall qualify for capital assistance provided under section 1437g of this title. The Secretary shall require abatement of lead-based paint and lead-based paint hazards in housing in which the test results equal or exceed the standard established by or under subsection (c). Final inspection and certification after abatement shall be made by a qualified inspector, industrial hygienist, or local public health official.

(2) Abatement demonstration program

(A) Abatement demonstration program

In carrying out the requirements of this subsection with respect to single-family and multifamily properties owned by the Department of Housing and Urban Development and public housing, the Secretary shall utilize a sufficient variety of abatement methods in a sufficient number of areas and circumstances to demonstrate their relative cost-effectiveness and their applicability to various types of housing. For purposes of the demonstration, a public housing agency may elect to test for lead-based paint using atomic absorption spectroscopy and may elect to abate lead-based paint and dust containing lead under standards more stringent than that in subsection (c), including the abatement of lead-based paint and dust which exceeds the standard of lead permitted in paints by the Consumer Product Safety Commission under this chapter, and such abatement shall qualify for assistance under section 1437l ¹ of this title.

(B) Report

Not later than 18 months after the effective date of the regulations issued to carry out this subsection, the Secretary shall transmit to the Congress the findings and recommendations of the Secretary as a result of the demonstration program, including any recommendations of the Secretary for legislation to revise the requirements of this subsection. Based on the demonstration, the Secretary shall prepare and include in the report a comprehensive and

workable plan for the cost-effective inspection and abatement of public housing in accordance with paragraph (3), including an estimate of the total cost of abatement in accordance with paragraph (3)(B). In preparing such report, the Secretary shall examine—

- (i) the most reliable technology available for detecting lead-based paint, including X-ray fluorescence and atomic absorption spectroscopy;
- (ii) the most efficient and cost-effective methods for abatement, including removal, containment, or encapsulation of the contaminated components, procedures which minimize the generation of dust (including the high efficiency vacuum removal of leaded dust), and procedures that provide for offsite disposal of the removed components, in compliance with all applicable regulatory standards and procedures;
- (iii) safety considerations in testing, abatement, and worker protection;
- (iv) the overall accuracy and reliability of laboratory testing of physical samples, x-ray fluorescence machines, and other available testing procedures;
- (v) availability of qualified samplers and testers;
- (vi) an estimate of the amount, characteristics, and regional distribution of housing in the United States that contains lead-based paint hazards at differing levels of contamination; and
- (vii) the merits of an interim containment protocol for public housing dwellings that are determined to have lead-based paint hazards but for which comprehensive improvement assistance under section 1437l¹ of this title is not available.

(3) Testing and abatement of other public housing

(A) Required inspection

The Secretary shall require the inspection described in subsection (c) for—

- (i) a random sample of dwellings and common areas in all public housing that is not subject to paragraph (1); and
- (ii) each dwelling in any public housing project in which there is a dwelling determined under clause (i) to have lead-based paint hazards, except that the Secretary shall not require the inspection of each dwelling if the Secretary requires the abatement of the lead-based paint hazards for the surfaces of each dwelling in the public housing project that correspond to the surfaces in the sample determined to have such hazards under clause (i).

(B) Schedule

The Secretary shall require the inspection of all housing subject to this paragraph prior to the expiration of 5 years after the report is required to be transmitted under paragraph (2)(B). The Secretary may prioritize, within such 5-year period, inspections on the basis of vacancy, age of housing, or projected modernization or rehabilitation. The Secretary shall require abatement and final inspection and certification of such housing in accordance with the last two sentences of paragraph (1).

(4) Report required

Not later than 9 months after completion of the demonstration required by paragraph (2), the Secretary shall, based on the demonstration, prepare and transmit to the Congress, a comprehensive and workable plan, including any recommendations for changes in legislation, for the prompt and cost effective inspection and abatement of privately owned single family and multifamily housing, including housing assisted under section 1437f of this title. After the expiration of the 9-month period referred to in the preceding sentence, the Secretary may not obligate or expend any funds or otherwise carry out activities related to any other policy development and research project until the report is transmitted.

(e) Exceptions

The provisions of this section shall not apply to—

- (1) housing for the elderly or persons with disabilities, or any 0-bedroom dwelling, except for any dwelling in such housing in which any child who is under age 6 resides or is expected to reside; or

(2) any project for which an application for insurance is submitted under section 1715v, 1715w, 1715z–6, or 1715z–7 of title 12.

(f) Funding

The Secretary shall carry out the provisions of this section utilizing available Federal funding sources. The Secretary shall use funds available under the Capital Fund under section 1437g of this title to carry out this section in public housing. The Secretary shall submit annually to the Congress an estimate of the funds required to carry out the provisions of this section with the reports required by paragraphs (2)(B) and (4).

(g) Interpretation of section

This section may not be construed to affect the responsibilities of the Environmental Protection Agency with respect to the protection of the public health from hazards posed by lead-based paint. (3)(A) Except as provided in subparagraph (B), the term "lead-based paint" means any paint containing more than five-tenths of 1 per centum lead by weight (calculated as lead metal) in the total nonvolatile content of the paint, or the equivalent measure of lead in the dried film of paint already applied, or both.

(B)(i) The Consumer Product Safety Commission shall, during the six-month period beginning on the date of the enactment of the National Health Promotion and Disease Prevention Act of 1976, determine, on the basis of available data and information and after providing opportunity for an oral hearing and considering recommendations of the Secretary of Health and Human Services (including those of the Centers for Disease Control and Prevention) and of the National Academy of Sciences, whether or not a level of lead in paint which is greater than six one-hundredths of 1 per centum but not in excess of five-tenths of 1 per centum is safe. If the Commission determines, in accordance with the preceding sentence, that another level of lead is safe, the term "lead-based paint" means, with respect to paint which is manufactured after the expiration of the six-month period beginning on the date of the Commission's determination, paint containing by weight (calculated as lead metal) in the total nonvolatile content of the paint more than the level of lead determined by the Commission to be safe or the equivalent measure of lead in the dried film of paint already applied, or both.

(ii) Unless the definition of the term "lead-based paint" has been established by a determination of the Consumer Product Safety Commission pursuant to clause (i) of this subparagraph, the term "lead-based paint" means, with respect to paint which is manufactured after the expiration of the twelve-month period beginning on such date of enactment, paint containing more than six one-hundredths of 1 per centum lead by weight (calculated as lead metal) in the total nonvolatile content of the paint, or the equivalent measure of lead in the dried film of paint already applied, or both.

SUBCHAPTER IV—REPORTS

4856. Reports of Secretary of Housing and Urban Development.

§4851. Findings

The Congress finds that—

(1) low-level lead poisoning is widespread among American children, afflicting as many as 3,000,000 children under age 6, with minority and low-income communities disproportionately affected;

(2) at low levels, lead poisoning in children causes intelligence quotient deficiencies, reading and learning disabilities, impaired hearing, reduced attention span, hyperactivity, and behavior problems;

(3) pre-1980 American housing stock contains more than 3,000,000 tons of lead in the form of lead-based paint, with the vast majority of homes built before 1950 containing substantial amounts of lead-based paint;

(4) the ingestion of household dust containing lead from deteriorating or abraded lead-based paint is the most common cause of lead poisoning in children;

(5) the health and development of children living in as many as 3,800,000 American homes is endangered by chipping or peeling lead paint, or excessive amounts of lead-contaminated dust in their homes;

(6) the danger posed by lead-based paint hazards can be reduced by abating lead-based paint or by taking interim measures to prevent paint deterioration and limit children's exposure to lead dust and chips;

(7) despite the enactment of laws in the early 1970's requiring the Federal Government to eliminate as far as practicable lead-based paint hazards in federally owned, assisted, and insured housing, the Federal response to this national crisis remains severely limited; and

(8) the Federal Government must take a leadership role in building the infrastructure—including an informed public, State and local delivery systems, certified inspectors, contractors, and laboratories, trained workers, and available financing and insurance—necessary to ensure that the national goal of eliminating lead-based paint hazards in housing can be achieved as expeditiously as possible.

(3) to encourage effective action to prevent childhood lead poisoning by establishing a workable framework for lead-based paint hazard evaluation and reduction and by ending the current confusion over reasonable standards of care;

(4) to ensure that the existence of lead-based paint hazards is taken into account in the development of Government housing policies and in the sale, rental, and renovation of homes and apartments;

(5) to mobilize national resources expeditiously, through a partnership among all levels of government and the private sector, to develop the most promising, cost-effective methods for evaluating and reducing lead-based paint hazards;

(6) to reduce the threat of childhood lead poisoning in housing owned, assisted, or transferred by the Federal Government; and

(7) to educate the public concerning the hazards and sources of lead-based paint poisoning and steps to reduce and eliminate such hazards.

(1) Lead-based paint hazards

Not later than 2 years after October 28, 1992, the Secretary and the Administrator of the Environmental Protection Agency shall promulgate regulations under this section for the disclosure of lead-based paint hazards in target housing which is offered for sale or lease. The regulations shall require that, before the purchaser or lessee is obligated under any contract to purchase or lease the housing, the seller or lessor shall—

(A) provide the purchaser or lessee with a lead hazard information pamphlet, as prescribed by the Administrator of the Environmental Protection Agency under section 406 of the Toxic Substances Control Act [15 U.S.C. 2686];

(B) disclose to the purchaser or lessee the presence of any known lead-based paint, or any known lead-based paint hazards, in such housing and provide to the purchaser or lessee any lead hazard evaluation report available to the seller or lessor; and

(C) permit the purchaser a 10-day period (unless the parties mutually agree upon a different period of time) to conduct a risk assessment or inspection for the presence of lead-based paint hazards.

(2) Contract for purchase and sale

Regulations promulgated under this section shall provide that every contract for the purchase and sale of any interest in target housing shall contain a Lead Warning Statement and a statement signed by the purchaser that the purchaser has—

(C) had a 10-day opportunity (unless the parties mutually agreed upon a different period of time) before becoming obligated under the contract to purchase the housing to conduct a risk assessment or inspection for the presence of lead-based paint hazards.

(3) Contents of lead warning statement

The Lead Warning Statement shall contain the following text printed in large type on a separate sheet of paper attached to the contract:

"Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase."

In any civil action brought for damages pursuant to paragraph (3), the appropriate court may award court costs to the party commencing such action, together with reasonable attorney fees and any expert witness fees, if that party prevails.

(5) Prohibited act

It shall be a prohibited act under section 409 of the Toxic Substances Control Act [15 U.S.C.

2689] for any person to fail or refuse to comply with a provision of this section or with any rule or order issued under this section. For purposes of enforcing this section under the Toxic Substances Control Act [15 U.S.C. 2601 et seq.], the penalty for each violation applicable under section 16 of that Act [15 U.S.C. 2615] shall not be more than \$10,000.

§4901. Congressional findings and statement of policy

(a) The Congress finds—

(1) that inadequately controlled noise presents a growing danger to the health and welfare of the Nation's population, particularly in urban areas;

(2) that the major sources of noise include transportation vehicles and equipment, machinery,

appliances, and other products in commerce; and

(3) that, while primary responsibility for control of noise rests with State and local governments, Federal action is essential to deal with major noise sources in commerce control of which require national uniformity of treatment.

(b) The Congress declares that it is the policy of the United States to promote an environment for all Americans free from noise that jeopardizes their health or welfare. To that end, it is the purpose of this chapter to establish a means for effective coordination of Federal research and activities in noise control, to authorize the establishment of Federal noise emission standards for products distributed in commerce, and to provide information to the public respecting the noise emission and noise reduction characteristics of such products.

§4903. Federal programs

(a) Furtherance of Congressional policy

The Congress authorizes and directs that Federal agencies shall, to the fullest extent consistent with their authority under Federal laws administered by them, carry out the programs within their control in such a manner as to further the policy declared in section 4901(b) of this title.

(b) Presidential authority to exempt activities or facilities from compliance requirements

Each department, agency, or instrumentality of the executive, legislative, and judicial branches of the Federal Government—

(1) having jurisdiction over any property or facility, or

(2) engaged in any activity resulting, or which may result, in the emission of noise,

shall comply with Federal, State, interstate, and local requirements respecting control and abatement of environmental noise to the same extent that any person is subject to such requirements. The President may exempt any single activity or facility, including noise emission sources or classes thereof, of any department, agency, or instrumentality in the executive branch from compliance with any such requirement if he determines it to be in the paramount interest of the United States to do so;

except that no exemption, other than for those products referred to in section 4902(3)(B) of this title, may be granted from the requirements of sections 4905, 4916, and 4917 of this title. No such exemption shall be granted due to lack of appropriation unless the President shall have specifically requested such appropriation as a part of the budgetary process and the Congress shall have failed to make available such requested appropriation. Any exemption shall be for a period not in excess of one year, but additional exemptions may be granted for periods of not to exceed one year upon the President's making a new determination. The President shall report each January to the Congress all exemptions from the requirements of this section granted during the preceding calendar year, together with his reason for granting such exemption.

(c) Coordination of programs of Federal agencies; standards and regulations; status reports

(1) The Administrator shall coordinate the programs of all Federal agencies relating to noise research and noise control. Each Federal agency shall, upon request, furnish to the Administrator such information as he may reasonably require to determine the nature, scope, and results of the noise-research and noise-control programs of the agency.

(2) Each Federal agency shall consult with the Administrator in prescribing standards or regulations respecting noise. If at any time the Administrator has reason to believe that a standard or regulation, or any proposed standard or regulation, of any Federal agency respecting noise does not protect the public health and welfare to the extent he believes to be required and feasible, he may request such agency to review and report to him on the advisability of revising such standard or regulation to provide such protection. Any such request may be published in the Federal Register and shall be accompanied by a detailed statement of the information on which it is based. Such agency shall complete the requested review and report to the Administrator within such time as the Administrator specifies in the request, but such time specified may not be less than ninety days from the date the request was made. The report shall be published in the Federal Register and shall be accompanied by a detailed statement of the findings and conclusions of the agency respecting the revision of its standard or regulation. With respect to the Federal Aviation Administration, section 44715 of title 49 shall apply in lieu of this paragraph.

(3) On the basis of regular consultation with appropriate Federal agencies, the Administrator shall compile and publish, from time to time, a report on the status and progress of Federal activities relating to noise research and noise control. This report shall describe the noise-control programs of each Federal agency and assess the contributions of those programs to the Federal Government's overall efforts to control noise.

(Pub. L. 92-574, §4, Oct. 27, 1972, 86 Stat. 1235.)

L. 103-272, §6(b), July 5, 1994, 108 Stat. 1378, the first section of which enacted subtitles II, III, and V to X of Title 49, Transportation.

STATUTORY NOTES AND RELATED SUBSIDIARIES

TERMINATION OF REPORTING REQUIREMENTS

For termination, effective May 15, 2000, of provisions in subsec. (b) of this section relating to annual report to Congress, see section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance, and item 7 on page 20 of House Document No. 103-7.

§4904. Identification of major noise sources

(a) Development and publication of criteria

(1) The Administrator shall, after consultation with appropriate Federal agencies and within nine

months of October 27, 1972, develop and publish criteria with respect to noise. Such criteria shall reflect the scientific knowledge most useful in indicating the kind and extent of all identifiable effects on the public health or welfare which may be expected from differing quantities and qualities of noise.

(2) The Administrator shall, after consultation with appropriate Federal agencies and within twelve months of October 27, 1972, publish information on the levels of environmental noise the attainment and maintenance of which in defined areas under various conditions are requisite to protect the public health and welfare with an adequate margin of safety.

(b) Compilation and publication of reports on noise sources and control technology

The Administrator shall, after consultation with appropriate Federal agencies, compile and publish a report or series of reports (1) identifying products (or classes of products) which in his judgment are major sources of noise, and (2) giving information on techniques for control of noise from such products, including available data on the technology, costs, and alternative methods of noise control. The first such report shall be published not later than eighteen months after October 27, 1972.

(c) Supplemental criteria and reports

The Administrator shall from time to time review and, as appropriate, revise or supplement any criteria or reports published under this section.

(d) Publication in Federal Register

Any report (or revision thereof) under subsection (b)(1) identifying major noise sources shall be published in the Federal Register. The publication or revision under this section of any criteria or information on control techniques shall be announced in the Federal Register, and copies shall be made available to the general public.

(Pub. L. 92-574, §5, Oct. 27, 1972, 86 Stat. 1236.)

§4905. Noise emission standards for products distributed in commerce

(a) Proposed regulations

(1) The Administrator shall publish proposed regulations, meeting the requirements of subsection (c), for each product—

(A) which is identified (or is part of a class identified) in any report published under section 4904(b)(1) of this title as a major source of noise,

(B) for which, in his judgment, noise emission standards are feasible, and

(C) which falls in one of the following categories:

(i) Construction equipment.

(ii) Transportation equipment (including recreational vehicles and related equipment).

(iii) Any motor or engine (including any equipment of which an engine or motor is an integral part).

(iv) Electrical or electronic equipment.

(2)(A) Initial proposed regulations under paragraph (1) shall be published not later than eighteen months after October 27, 1972, and shall apply to any product described in paragraph (1) which is identified (or is a part of a class identified) as a major source of noise in any report published under section 4904(b)(1) of this title on or before the date of publication of such initial proposed regulations.

(B) In the case of any product described in paragraph (1) which is identified (or is part of a class identified) as a major source of noise in a report published under section 4904(b)(1) of this title after publication of the initial proposed regulations under subparagraph (A) of this paragraph, regulations under paragraph (1) for such product shall be proposed and published by the Administrator not later than eighteen months after such report is published.

(3) After proposed regulations respecting a product have been published under paragraph (2), the

Administrator shall, unless in his judgment noise emission standards are not feasible for such product, prescribe regulations, meeting the requirements of subsection (c), for such product—

(A) not earlier than six months after publication of such proposed regulations, and

(B) not later than—

(i) twenty-four months after October 27, 1972, in the case of a product subject to proposed regulations published under paragraph (2)(A), or

(ii) in the case of any other product, twenty-four months after the publication of the report under section 4904(b)(1) of this title identifying it (or a class of products of which it is a part) as a major source of noise.

(b) Authority to publish regulations not otherwise required

The Administrator may publish proposed regulations, meeting the requirements of subsection (c), for any product for which he is not required by subsection (a) to prescribe regulations but for which, in his judgment, noise emission standards are feasible and are requisite to protect the public health and welfare. Not earlier than six months after the date of publication of such proposed regulations respecting such product, he may prescribe regulations, meeting the requirements of subsection (c), for such product.

(c) Contents of regulations; appropriate consideration of other standards; participation by interested persons; revision

(1) Any regulation prescribed under subsection (a) or (b) of this section (and any revision thereof) respecting a product shall include a noise emission standard which shall set limits on noise emissions from such product and shall be a standard which in the Administrator's judgment, based on criteria published under section 4904 of this title, is requisite to protect the public health and welfare, taking into account the magnitude and conditions of use of such product (alone or in combination with other noise sources), the degree of noise reduction achievable through the application of the best available technology, and the cost of compliance. In establishing such a standard for any product, the Administrator shall give appropriate consideration to standards under other laws designed to safeguard the health and welfare of persons, including any standards under chapter 301 of title 49, the Clean Air Act [42 U.S.C. 7401 et seq.], and the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.]. Any such noise emission standards shall be a performance standard. In addition, any regulation under subsection (a) or (b) (and any revision thereof) may contain testing procedures necessary to assure compliance with the emission standard in such regulation, and may contain provisions respecting instructions of the manufacturer for the maintenance, use, or repair of the product.

(2) After publication of any proposed regulations under this section, the Administrator shall allow interested persons an opportunity to participate in rulemaking in accordance with the first sentence of section 553(c) of title 5.

(3) The Administrator may revise any regulation prescribed by him under this section by (A) publication of proposed revised regulations, and (B) the promulgation, not earlier than six months after the date of such publication, of regulations making the revision; except that a revision which makes only technical or clerical corrections in a regulation under this section may be promulgated earlier than six months after such date if the Administrator finds that such earlier promulgation is in the public interest.

(d) Warranty by manufacturer of conformity of product with regulations; transfer of cost obligation from manufacturer to dealer prohibited

(1) On and after the effective date of any regulation prescribed under subsection (a) or (b) of this section, the manufacturer of each new product to which such regulation applies shall warrant to the ultimate purchaser and each subsequent purchaser that such product is designed, built, and equipped so as to conform at the time of sale with such regulation.

(2) Any cost obligation of any dealer incurred as a result of any requirement imposed by paragraph (1) of this subsection shall be borne by the manufacturer. The transfer of any such cost obligation from a manufacturer to any dealer through franchise or other agreement is prohibited.

(3) If a manufacturer includes in any advertisement a statement respecting the cost or value of noise emission control devices or systems, such manufacturer shall set forth in such statement the cost or value attributed to such devices or systems by the Secretary of Labor (through the Bureau of Labor Statistics). The Secretary of Labor, and his representatives, shall have the same access for this purpose to the books, documents, papers, and records of a manufacturer as the Comptroller General has to those of a recipient of assistance for purposes of section 311 of the Clean Air Act [42 U.S.C. 7611].

(e) State and local regulations

(1) No State or political subdivision thereof may adopt or enforce—

(A) with respect to any new product for which a regulation has been prescribed by the Administrator under this section, any law or regulation which sets a limit on noise emissions from such new product and which is not identical to such regulation of the Administrator; or

(B) with respect to any component incorporated into such new product by the manufacturer of such product, any law or regulation setting a limit on noise emissions from such component when so incorporated.

(2) Subject to sections 4916 and 4917 of this title, nothing in this section precludes or denies the right of any State or political subdivision thereof to establish and enforce controls on environmental noise (or one or more sources thereof) through the licensing, regulation, or restriction of the use, operation, or movement of any product or combination of products.

(f) Publication of notice of receipt of revision petitions and proposed revised regulations

At any time after the promulgation of regulations respecting a product under this section, a State or political subdivision thereof may petition the Administrator to revise such standard on the grounds that a more stringent standard under subsection (c) of this section is necessary to protect the public health and welfare. The Administration shall publish notice of receipt of such petition in the Federal Register and shall within ninety days of receipt of such petition respond by (1) publication of proposed revised regulations in accordance with subsection (c)(3) of this section, or (2) publication in the Federal Register of a decision not to publish such proposed revised regulations at that time, together with a detailed explanation for such decision.

§4914. Development of low-noise-emission products

(a) Definitions

For the purpose of this section:

(1) The term "Committee" means the Low-Noise-Emission Product Advisory Committee.

(2) The term "Federal Government" includes the legislative, executive, and judicial branches of the Government of the United States, and the government of the District of Columbia.

(3) The term "low-noise-emission product" means any product which emits noise in amounts significantly below the levels specified in noise emission standards under regulations applicable under section 4905 of this title at the time of procurement to that type of product.

(4) The term "retail price" means (A) the maximum statutory price applicable to any type of product; or (B) in any case where there is no applicable maximum statutory price, the most recent procurement price paid for any type of product.

(b) Certification of products; Low-Noise-Emission Product Advisory Committee

(1) The Administrator shall determine which products qualify as low-noise-emission products in accordance with the provisions of this section.

(2) The Administrator shall certify any product—

(A) for which a certification application has been filed in accordance with paragraph (5)(A) of this subsection;

(B) which is a low-noise-emission product as determined by the Administrator; and

(C) which he determines is suitable for use as a substitute for a type of product at that time in use by agencies of the Federal Government.

(3) The Administrator may establish a Low-Noise-Emission Product Advisory Committee to assist him in determining which products qualify as low-noise-emission products for purposes of this section. The Committee shall include the Administrator or his designee, a representative of the National Institute of Standards and Technology, and representatives of such other Federal agencies and private individuals as the Administrator may deem necessary from time to time. Any member of the Committee not employed on a full-time basis by the United States may receive the daily equivalent of the annual rate of basic pay in effect for Grade GS-18 of the General Schedule for each day such member is engaged upon work of the Committee. Each member of the Committee shall be reimbursed for travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of title 5 for persons in the Government service employed intermittently.

(4) Certification under this section shall be effective for a period of one year from the date of issuance.

(5)(A) Any person seeking to have a class or model of product certified under this section shall file a certification application in accordance with regulations prescribed by the Administrator.

(B) The Administrator shall publish in the Federal Register a notice of each application received.

(C) The Administrator shall make determinations for the purpose of this section in accordance with procedures prescribed by him by regulation.

(D) The Administrator shall conduct whatever investigation is necessary, including actual inspection of the product at a place designated in regulations prescribed under subparagraph (A).

(E) The Administrator shall receive and evaluate written comments and documents from interested persons in support of, or in opposition to, certification of the class or model of product under consideration.

(F) Within ninety days after the receipt of a properly filed certification application the Administrator shall determine whether such product is a low-noise-emission product for purposes of this section. If the Administrator determines that such product is a low-noise-emission product, then within one hundred and eighty days of such determination the Administrator shall reach a decision as to whether such product is a suitable substitute for any class or classes of products presently being purchased by the Federal Government for use by its agencies.

(G) Immediately upon making any determination or decision under subparagraph (F), the Administrator shall publish in the Federal Register notice of such determination or decision, including reasons therefor.

(c) Federal procurement of low-noise-emission products

(1) Certified low-noise-emission products shall be acquired by purchase or lease by the Federal Government for use by the Federal Government in lieu of other products if the Administrator of General Services determines that such certified products have procurement costs which are no more than 125 per centum of the retail price of the least expensive type of product for which they are certified substitutes.

(2) Data relied upon by the Administrator in determining that a product is a certified low-noise-emission product shall be incorporated in any contract for the procurement of such product.

(d) Product selection

The procuring agency shall be required to purchase available certified low-noise-emission products which are eligible for purchase to the extent they are available before purchasing any other products for which any low-noise-emission product is a certified substitute. In making purchasing selections between competing eligible certified low-noise-emission products, the procuring agency shall give priority to any class or model which does not require extensive periodic maintenance to

retain its low-noise-emission qualities or which does not involve operating costs significantly in excess of those products for which it is a certified substitute.

(e) Waiver of statutory price limitations

For the purpose of procuring certified low-noise-emission products any statutory price limitations shall be waived.

(f) Tests of noise emissions from products purchased by Federal Government

The Administrator shall, from time to time as he deems appropriate, test the emissions of noise from certified low-noise-emission products purchased by the Federal Government. If at any time he finds that the noise-emission levels exceed the levels on which certification under this section was based, the Administrator shall give the supplier of such product written notice of this finding, issue public notice of it, and give the supplier an opportunity to make necessary repairs, adjustments, or replacements. If no such repairs, adjustments, or replacements are made within a period to be set by the Administrator, he may order the supplier to show cause why the product involved should be eligible for recertification.

(g) Authorization of appropriations

There are authorized to be appropriated for paying additional amounts for products pursuant to, and for carrying out the provisions of, this section, \$1,000,000 for the fiscal year ending June 30, 1973, and \$2,000,000 for each of the two succeeding fiscal years, \$2,200,000 for the fiscal year ending June 30, 1976, \$550,000 for the transition period of July 1, 1976, through September 30, 1976, and \$2,420,000 for the fiscal year ending September 30, 1977.

§4916. Railroad noise emission standards

(a) Regulations; standards; consultation with Secretary of Transportation

(1) Within nine months after October 27, 1972, the Administrator shall publish proposed noise emission regulations for surface carriers engaged in interstate commerce by railroad. Such proposed regulations shall include noise emission standards setting such limits on noise emissions resulting from operation of the equipment and facilities of surface carriers engaged in interstate commerce by railroad which reflect the degree of noise reduction achievable through the application of the best available technology, taking into account the cost of compliance. These regulations shall be in addition to any regulations that may be proposed under section 4905 of this title.

(2) Within ninety days after the publication of such regulations as may be proposed under paragraph (1) of this subsection, and subject to the provisions of section 4915 of this title, the Administrator shall promulgate final regulations. (1) In general

The Secretary of Transportation, in consultation with the Administrator, may prescribe regulations governing railroad-related noise emission standards for trains operating on the general railroad system of transportation at speeds exceeding 160 miles per hour, including noise related to magnetic levitation systems and other new technologies not traditionally associated with railroads.

(2) Factors in rulemaking

The regulations prescribed pursuant to paragraph (1) may—

- (A) consider variances in maximum pass-by noise with respect to the speed of the equipment;
- (B) account for current engineering best practices; and
- (C) encourage the use of noise mitigation techniques to the extent reasonable if the benefits exceed the costs.

(3) Conventional-speed trains

Railroad-related noise regulations prescribed under subsection (a) shall continue to govern noise emissions from the operation of trains, including locomotives and rail cars, when operating at speeds not exceeding 160 miles per hour.

(d) State and local standards and controls

(1) Subject to paragraph (2) but notwithstanding any other provision of this chapter, after the effective date of a regulation under this section applicable to noise emissions resulting from the operation of any equipment or facility of a surface carrier engaged in interstate commerce by

railroad, no State or political subdivision thereof may adopt or enforce any standard applicable to noise emissions resulting from the operation of the same equipment or facility of such carrier unless such standard is identical to a standard applicable to noise emissions resulting from such operation prescribed by any regulation under this section.

(2) Nothing in this section shall diminish or enhance the rights of any State or political subdivision thereof to establish and enforce standards or controls on levels of environmental noise, or to control, license, regulate, or restrict the use, operation, or movement of any product if the Administrator, after consultation with the Secretary of Transportation, determines that such standard, control, license, regulation, or restriction is necessitated by special local conditions and is not in conflict with regulations promulgated under this section.

(e) "Carrier" and "railroad" defined

The terms "carrier" and "railroad" as used in this section shall have the same meaning as the term "railroad carrier" has in section 20102 of title 49.

PART B—FOSTER GRANDPARENT PROGRAM

§5011. Grants and contracts for individual service projects

(a) Foster Grandparent projects; amount

The Director is authorized to make grants to or contracts with public and nonprofit private agencies and organizations to pay part or all of the cost of development and operation of projects (including direct payments to individuals serving under this part) designed for the purpose of providing opportunities for low-income persons age 55 or over to provide supportive person-to-person services in health, education, welfare, and related settings to children having special or exceptional needs or circumstances identified as limiting their academic, social, or emotional development. Such services may include services by individuals serving as foster grandparents to children who are individuals with disabilities, who have chronic health conditions, who are receiving care in hospitals, who are residing in homes for dependent and neglected children, or who are receiving services provided by day care centers, schools, early intervention programs under part C of the Individuals with Disabilities Education Act (20 U.S.C. 1431 et seq.), Head Start agencies under the Head Start Act [42 U.S.C. 9831 et seq.], or other programs, establishments, and institutions providing services for children having special or exceptional needs or circumstances identified as limiting their academic, social, or emotional development. Individual foster grandparents may provide person-to-person services to one or more children, depending on the needs of the project and local site. The Director may approve assistance in excess of 90 per centum of the costs of the development and operation of such projects only if the Director determines, in accordance with regulations the Director shall prescribe establishing objective criteria, that such action is required in furtherance of the purpose of this section. Provision for such assistance shall be effective as of September 19, 1972. In the case of any project with respect to which, prior to such date, a grant or contract has been made under section 3044b(a) ¹ of this title or with respect to any project under the Foster Grandparent program in effect prior to September 17, 1969, contributions in cash or in kind from the Bureau of Indian Affairs, Department of the Interior, toward the cost of the project may be counted as part of the cost thereof which is met from non-Federal sources.

(b) Person-to-person services to children in an individual service project by public or private nonprofit agency; authority and criteria for determinations; mutual agreements between parties

(1) Any public or private nonprofit agency or organization responsible for providing person-to-person services to a child in a project carried out under subsection (a) of this section may determine—

(A) which children may receive supportive person-to-person services under such project;

(B) the period of time during which such services shall be continued in the case of each individual child; and

(C) whether it is in the best interest of the child receiving, and the particular foster grandparent providing, services in such a project, to continue the relationship between the child and the grandparent under this part after the child reaches the age of 21, if such child is an individual with a disability who was receiving such services prior to attaining the age of 21.

(2) If an assignment of a foster grandparent under this part is suspended or discontinued, the

replacement of that foster grandparent shall be determined in a manner consistent with paragraph (3).

(3) Any determination made by a public or nonprofit private agency or organization under paragraphs (1) and (2) of this subsection shall be made through mutual agreement by all parties involved with respect to the provision of services to the child involved.

(c) "Child" and "children" defined

For the purposes of this section, the terms "child" and "children" mean any individual or individuals who are less than 21 years of age.

(d) Domestic Volunteer Service; allowances, stipends, and other support

The Director, in accordance with regulations the Director shall prescribe, may provide to low-income persons serving as volunteers under this part, such allowances, stipends, and other support as the Director determines are necessary to carry out the purpose of this part. Any stipend or allowance provided under this section shall not be less than \$3.00 per hour, except that (1) such stipend or allowance shall not be increased as a result of an amendment made to this sentence unless the funds appropriated for carrying out this part are sufficient to maintain for the fiscal year in question a number of participants to serve under this part at least equal to the number of such participants serving during the preceding fiscal year, and (2) in the event that sufficient appropriations for any fiscal year are not available to increase any such stipend or allowance provided to the minimum hourly rate specified in this sentence, the Director shall increase the stipend or allowance to such amount as appropriations for such year permit consistent with clause (1) of this exception. In establishing the amount of, and the effective date for, such adjustment, the Director, in consultation with the State Commissions on National and Community Service (as established under section 12638 of this title) and the heads of the State offices established under section 12651f of this title, shall consider the effect such adjustment will have on the ability of non-federally funded volunteer programs similar to the programs under this subchapter to maintain their current level of volunteer hours.

(e) "Low-income person" and "person of low income" defined

For purposes of this part, the terms "low-income person" and "person of low income" mean—

(1) any person whose income is not more than 200 percent of the poverty line defined in section 9902(2) of this title and adjusted by the Director in the manner described in such section; and

(2) any person whose income is not more than 100 percent of such poverty line, as so adjusted and determined by the Director after taking into consideration existing poverty guidelines as appropriate to local situations.

Persons described in paragraph (2) shall be given special consideration for participation in projects under this part.

(f) Persons entitled to serve as volunteers; application of regulations to volunteers; equal treatment to all volunteers by recipients of grants; conditions of grants; use of funds; payment of costs

(1)(A) Except as provided in subparagraph (B), individuals who are not low-income persons may serve as volunteers under this part, in accordance with such regulations as the Director shall issue, if such individuals serve without receiving any allowance, stipend, or other financial support under this part except reimbursement for transportation, meals, and out-of-pocket expenses incident to serving under this part.

(B) The regulations issued by the Director to carry out this part (other than any regulations relating to allowances, stipends, and other financial support authorized by subsection (d) to be paid under this part to low-income persons) shall apply to all volunteers under this part, without regard to whether such volunteers are eligible to receive a stipend under subsection (d).

(2)(A) Except as provided in subparagraph (B), each recipient of a grant or contract to carry out a project under this part shall give equal treatment to all volunteers who participate in such project, without regard to whether such volunteers are eligible to receive a stipend under subsection (d).

(B) An individual who is not a low-income person may not become a volunteer under this part if

allowing such individual to become a volunteer under this part would prevent a low-income individual from becoming a volunteer under this part or would displace a low-income person from being such a volunteer.

(3) The Director may not take into consideration or require as a condition of receiving a grant or contract to carry out a project under this part, any applicant for such grant or contract—

(A) to accept or recruit individuals who are not low-income persons to serve as volunteers under this part; or

(B) to solicit locally generated contributions, in cash or in kind, to support such individuals.

The Director may not coerce any applicant for, or recipient of, such grant or contract to engage in conduct described in subparagraph (A) or (B).

(4) Funds appropriated to carry out this part may not be used to pay any cost, including any administrative cost, incurred in connection with volunteers under this part who do not receive a stipend under subsection (d). Such cost incurred with respect to a volunteer may be paid with—

(A) funds received by the Director as unrestricted gifts;

(B) funds received by the Director as gifts to pay such cost;

(C) funds contributed by such volunteer; or

(D) locally generated contributions in excess of the amount required to be contributed under subsection (a), in the discretion of the recipient of a grant or contract under such subsection.

CONGRESSIONAL FINDINGS

Pub. L. 93–247, §2, as added by Pub. L. 102–295, title I, §102(a), May 28, 1992, 106 Stat. 188, and amended by Pub. L. 104–235, title I, §100, Oct. 3, 1996, 110 Stat. 3064; Pub. L. 108–36, title I, §101, June 25, 2003, 117 Stat. 801; Pub. L. 111–320, title I, §101, Dec. 20, 2010, 124 Stat. 3459, provided that:

"Congress finds that—

"(1) in fiscal year 2008, approximately 772,000 children were found by States to be victims of child abuse and neglect;

"(2)(A) more children suffer neglect than any other form of maltreatment and close to 1/3 of all child maltreatment-related fatalities in fiscal year 2008 were attributed to neglect alone; and

"(B) investigations have determined that approximately 71 percent of children who were victims of maltreatment in fiscal year 2008 suffered neglect, 16 percent suffered physical abuse, 9 percent suffered sexual abuse,, [sic] 7 percent suffered psychological maltreatment, 2 percent experienced medical neglect, and 9 percent were victims of other forms of maltreatment;

"(3)(A) child abuse or neglect can result in the death of a child;

"(B) in fiscal year 2008, an estimated 1,740 children were counted by child protection services to have died as a result of abuse or neglect; and

"(C) in fiscal year 2008, children younger than 1 year old comprised 45 percent of child maltreatment fatalities and 72 percent of child maltreatment fatalities were younger than 4 years of age;

"(4)(A) many of these children and their families fail to receive adequate protection and treatment; and

"(B) approximately 37 percent of victims of child abuse did not receive post-investigation services in fiscal year 2008;

"(5) African-American children, American Indian children, Alaska Native children, and children of multiple races and ethnicities experience the highest rates of child abuse or neglect;

"(6) the problem of child abuse and neglect requires a comprehensive approach that—

"(A) integrates the work of social service, legal, health, mental health, domestic violence services, education, and substance abuse agencies and community-based organizations;

"(B) strengthens coordination among all levels of government, and with private agencies, civic, religious, and professional organizations, and individual volunteers;

"(C) emphasizes the need for abuse and neglect prevention, assessment, investigation, and treatment at the neighborhood level;

"(D) recognizes the need for properly trained staff with the qualifications needed, to carry out their child protection duties; and

"(E) recognizes the diversity of ethnic, cultural, and religious beliefs and traditions that may impact child rearing patterns, while not allowing the differences in those beliefs and traditions to enable abuse or neglect;

"(7) the failure to coordinate and comprehensively prevent and treat child abuse and neglect threatens the futures of thousands of children and results in a cost to the Nation of billions of dollars in tangible expenditures, as well as significant intangible costs;

"(8) all elements of American society have a shared responsibility in responding to child abuse and neglect;

"(9) substantial reductions in the prevalence and incidence of child abuse and neglect and the alleviation of its consequences are matters of the highest national priority;

"(10) national policy should strengthen families to prevent child abuse and neglect, provide support for needed services to prevent the unnecessary removal of children from families, and promote the reunification of families where appropriate;

"(11) the child protection system should be comprehensive, child-centered, family-focused, and community-based, should incorporate all appropriate measures to prevent the occurrence or recurrence of child abuse and neglect, and should promote physical and psychological recovery and social re-integration in an environment that fosters the health, safety, self-respect, and dignity of the child;

"(12) because both child maltreatment and domestic violence occur in up to 60 percent of the families in which either is present, States and communities should adopt assessments and intervention procedures aimed at enhancing the safety both of children and victims of domestic violence;

"(13) because of the limited resources available in low-income communities, Federal aid for the child protection system should be distributed with due regard to the relative financial need of the communities;

"(14) the Federal Government should assist States and communities with the fiscal, human, and technical resources necessary to develop and implement a successful and comprehensive child and family protection strategy; and

"(15) the Federal Government should provide leadership and assist communities in their child and

family protection efforts by—

- "(A) promoting coordinated planning among all levels of government;
- "(B) generating and sharing knowledge relevant to child and family protection, including the development of models for service delivery;
- "(C) strengthening the capacity of States to assist communities;
- "(D) allocating financial resources to assist States in implementing community plans;
- "(E) helping communities to carry out their child and family protection plans by promoting the competence of professional, paraprofessional, and volunteer resources; and
- "(F) providing leadership to end the abuse and neglect of the nation's children and youth."

"(7) certain States, including Georgia, North Carolina, California, Missouri, Arizona, Minnesota, Oklahoma, and Oregon, have taken steps to establish by statute interagency, multidisciplinary fatality review teams to fully investigate incidents of death believed to be caused by child abuse or neglect;

"(8) teams such as those described in paragraph (7) should be established in every State, and their scope of review should be expanded to include egregious incidents of child abuse and neglect before the child in question dies; and

SUBCHAPTER II—ADOPTION OPPORTUNITIES

§5111. Congressional findings and declaration of purpose

(a) Findings

Congress finds that—

(1) on the last day of fiscal year 2009, some 424,000 children were living in temporary foster family homes or other foster care settings;

(2) most children in foster care are victims of child abuse or neglect by their biological parents and their entry into foster care brought them the additional trauma of separation from their homes and often their communities;

(3) on average, children entering foster care have more physical and mental health needs than do children in the general population, and some require intensive services because the children entering foster care—

(A) were born to mothers who did not receive prenatal care;

(B) were born with life-threatening conditions or disabilities;

(C) were born addicted to alcohol or other drugs; or

(D) have HIV/AIDS;

(4) each year, thousands of children in foster care, regardless of their age, the size of the sibling group they are a part of, their racial or ethnic status, their medical condition, or any physical, mental or emotional disability they may have, are in need of placement with permanent, loving, adoptive families;

(5)(A) States have made important strides in increasing the number of children who are placed in permanent homes with adoptive parents and in reducing the length of time children wait for

such a placement; and

(B) many thousands of children, however, still remain in institutions or foster homes solely because of legal and other barriers to such a placement;

(6)(A) on the last day of fiscal year 2009, there were 115,000 children waiting for adoption;

(B) children waiting for adoption have had parental rights of all living parents terminated or the children have a permanency goal of adoption;

(C)(i) the average age of children adopted with public child welfare agency involvement during fiscal year 2009 was a little more than 6 years; and

(ii) the average age of children waiting for adoption on the last day of that fiscal year was a little more than 8 years of age and more than 30,000 of those children were 12 years of age or older; and

(D)(i) 25 percent of the children adopted with public child welfare agency involvement during fiscal year 2009 were African-American; and

(ii) 30 percent of the children waiting for adoption on the last day of fiscal year 2009 were African-American;

(7) adoption may be the best alternative for assuring the healthy development of children placed in foster care;

(8) there are qualified persons seeking to adopt such children who are unable to do so because of barriers to their placement and adoption; and

(9) in order both to enhance the stability of and love in the home environments of such children and to avoid wasteful expenditures of public funds, such children—

(A) should not have medically indicated treatment withheld from them; or

(B) be maintained in foster care or institutions when adoption is appropriate and families can be found for such children.

(b) Purpose

It is the purpose of this subchapter to facilitate the elimination of barriers, including geographic barriers, to adoption and to provide permanent and loving home environments for children who would benefit from adoption, particularly older children, minority children, and children with special needs, including disabled infants with life-threatening conditions, by providing a mechanism to—

(1) promote quality standards for adoption services, pre-placement, post-placement, and post-legal adoption counseling, and standards to protect the rights of children in need of adoption;

(2) maintain an Internet-based national adoption information exchange system to—

(A) bring together children who would benefit from adoption and qualified prospective adoptive parents who are seeking such children;

(B) conduct national recruitment efforts in order to reach prospective parents for children awaiting adoption; and

(C) connect placement agencies, prospective adoptive parents, and adoptive parents to resources designed to reduce barriers to adoption, support adoptive families, and ensure permanency; and

(3) demonstrate expeditious ways to free children for adoption for whom it has been determined that adoption is the appropriate plan.

SUBCHAPTER I—FINDINGS, DECLARATIONS, AND DEFINITIONS

§5121. Congressional findings and declarations

(a) The Congress hereby finds and declares that—

(1) because disasters often cause loss of life, human suffering, loss of income, and property loss and damage; and

(2) because disasters often disrupt the normal functioning of governments and communities, and

adversely affect individuals and families with great severity;

special measures, designed to assist the efforts of the affected States in expediting the rendering of aid, assistance, and emergency services, and the reconstruction and rehabilitation of devastated areas, are necessary.

(b) It is the intent of the Congress, by this chapter, to provide an orderly and continuing means of assistance by the Federal Government to State and local governments in carrying out their responsibilities to alleviate the suffering and damage which result from such disasters by—

- (1) revising and broadening the scope of existing disaster relief programs;
- (2) encouraging the development of comprehensive disaster preparedness and assistance plans, programs, capabilities, and organizations by the States and by local governments;
- (3) achieving greater coordination and responsiveness of disaster preparedness and relief programs;
- (4) encouraging individuals, States, and local governments to protect themselves by obtaining insurance coverage to supplement or replace governmental assistance;
- (5) encouraging hazard mitigation measures to reduce losses from disasters, including development of land use and construction regulations;
- (6) providing Federal assistance programs for both public and private losses sustained in disasters; and
- (7) identifying and improving the climate and natural hazard resilience of vulnerable communities.

EFFECTIVE DATE OF 2018 AMENDMENT

Amendment by Pub. L. 115–254 applicable to each major disaster and emergency declared by the President on or after Aug. 1, 2017, and authorities provided under div. D of Pub. L. 115–254 applicable to each major disaster and emergency declared by the President on or after Jan. 1, 2016, except as otherwise provided, see section 1202 of Pub. L. 115–254, set out as a note under section 5121 of this title.

Pub. L. 115–254, div. D, §1234(b), Oct. 5, 2018, 132 Stat. 3462, provided that: "The amendments made to section 203 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133) by paragraphs (3) and (5) of subsection (a) shall apply to funds appropriated on or after the date of enactment of this Act [Oct. 5, 2018]."

Pub. L. 115–254, div. D, §1234(d), Oct. 5, 2018, 132 Stat. 3463, provided that the amendment made by section 1234(d) is effective on the date that is 5 years after Oct. 5, 2018.

FINDINGS

Pub. L. 111–351, §2, Jan. 4, 2011, 124 Stat. 3863, provided that: "Congress finds the following:

"(1) The predisaster hazard mitigation program has been successful and cost-effective. Funding from the predisaster hazard mitigation program has successfully reduced loss of life, personal injuries, damage to and destruction of property, and disruption of communities from disasters.

"(2) The predisaster hazard mitigation program has saved Federal taxpayers from spending significant sums on disaster recovery and relief that would have been otherwise incurred had communities not successfully applied mitigation techniques.

"(3) A 2007 Congressional Budget Office report found that the predisaster hazard mitigation program reduced losses by roughly \$3 (measured in 2007 dollars) for each dollar invested in mitigation efforts funded under the predisaster hazard mitigation program. Moreover, the Congressional Budget Office found that projects funded under the predisaster hazard mitigation program could lower the need for post-disaster assistance from the Federal Government so that the predisaster hazard mitigation investment by the Federal Government would actually save taxpayer funds.

"(4) A 2005 report by the Multihazard Mitigation Council showed substantial benefits and cost savings from the hazard mitigation programs of the Federal Emergency Management Agency generally. Looking at a range of hazard mitigation programs of the Federal Emergency Management Agency, the study found that, on average, \$1 invested by the Federal Emergency Management Agency in hazard mitigation provided the Nation with roughly \$4 in benefits. Moreover, the report projected that the mitigation grants awarded between 1993 and 2003 would save more than 220 lives and prevent nearly 4,700 injuries over approximately 50 years.

"(5) Given the substantial savings generated from the predisaster hazard mitigation program in the years following the provision of assistance under the program, increasing funds appropriated for the program would be a wise investment."

FINDINGS AND PURPOSE

Pub. L. 106–390, title I, §101, Oct. 30, 2000, 114 Stat. 1552, provided that:

"(a) FINDINGS.—Congress finds that—

"(1) natural disasters, including earthquakes, tsunamis, tornadoes, hurricanes, flooding, and wildfires, pose great danger to human life and to property throughout the United States;

"(2) greater emphasis needs to be placed on—

"(A) identifying and assessing the risks to States and local governments (including Indian tribes) from natural disasters;

"(B) implementing adequate measures to reduce losses from natural disasters; and

"(C) ensuring that the critical services and facilities of communities will continue to function after a natural disaster;

"(3) expenditures for postdisaster assistance are increasing without commensurate reductions in the likelihood of future losses from natural disasters;

"(4) in the expenditure of Federal funds under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), high priority should be given to mitigation of hazards at the local level; and

"(5) with a unified effort of economic incentives, awareness and education, technical assistance, and demonstrated Federal support, States and local governments (including Indian tribes) will be able to—

"(A) form effective community-based partnerships for hazard mitigation purposes;

"(B) implement effective hazard mitigation measures that reduce the potential damage from natural disasters;

"(C) ensure continued functionality of critical services;

"(D) leverage additional non-Federal resources in meeting natural disaster resistance goals; and

"(E) make commitments to long-term hazard mitigation efforts to be applied to new and existing structures.

"(b) PURPOSE.—The purpose of this title [enacting this section and sections 5134, 5165 and 5165a of this title, amending section 5170c of this title, and repealing section 5176 of this title] is to establish a national disaster hazard mitigation program—

"(1) to reduce the loss of life and property, human suffering, economic disruption, and disaster assistance costs resulting from natural disasters; and

"(2) to provide a source of predisaster hazard mitigation funding that will assist States and local governments (including Indian tribes) in implementing effective hazard mitigation measures that are designed to ensure the continued functionality of critical services and facilities after a natural disaster."

(a) General authority

(1) In general

The Administrator may enter into agreements with eligible entities to make capitalization grants to such entities for the establishment of hazard mitigation revolving loan funds (referred to in this section as "entity loan funds") for providing funding assistance to local governments to carry out eligible projects under this section to reduce disaster risks for homeowners, businesses, nonprofit organizations, and communities in order to decrease—

- (A) the loss of life and property;

(2) Agreements

Any agreement entered into under this section shall require the participating entity to—

- (A) comply with the requirements of this section; and
- (B) use accounting, audit, and fiscal procedures conforming to generally accepted accounting standards.

(b) Application

(1) In general

To be eligible to receive a capitalization grant under this section, an eligible entity shall submit to the Administrator an application that includes the following:

- (A) Project proposals comprised of local government hazard mitigation projects, on the

condition that the entity provides public notice not less than 6 weeks prior to the submission of an application.

(E) A proposal of the systematic and regional approach to achieve resilience in a vulnerable area, including impacts to river basins, river corridors, watersheds, estuaries, bays, coastal regions, micro-basins, micro-watersheds, ecosystems, and areas at risk of earthquakes, tsunamis, droughts, severe storms, and wildfires, including the wildland-urban interface.

(2) Technical assistance

The Administrator shall provide technical assistance to eligible entities for applications under this section.

(c) Entity loan fund

(1) Establishment of fund

An entity that receives a capitalization grant under this section shall establish an entity loan fund that complies with the requirements of this subsection.

Except as provided in paragraph (3), entity loan funds shall—

(A) be administered by the agency responsible for emergency management; and

(B) include only—

(i) funds provided by a capitalization grant under this section;

(ii) repayments of loans under this section to the entity loan fund; and

(iii) interest earned on amounts in the entity loan fund.

(3) Administration

A participating entity may combine the financial administration of the entity loan fund of such entity with the financial administration of any other revolving fund established by such entity if the Administrator determines that—

(A) the capitalization grant, entity share, repayments of loans, and interest earned on amounts in the entity loan fund are accounted for separately from other amounts in the revolving fund; and

(B) the authority to establish assistance priorities and carry out oversight activities remains in the control of the entity agency responsible for emergency management.

(4) Entity share of funds

(A) In general

On or before the date on which a participating entity receives a capitalization grant under this section, the entity shall deposit into the entity loan fund of such entity, an amount equal to not less than 10 percent of the amount of the capitalization grant.

(B) Reduced grant

If, with respect to a capitalization grant under this section, a participating entity deposits in the entity loan fund of the entity an amount that is less than 10 percent of the total amount of the capitalization grant that the participating entity would otherwise receive, the Administrator shall reduce the amount of the capitalization grant received by the entity to the amount that is 10 times the amount so deposited.

(d) Apportionment

(1) In general

Except as otherwise provided by this subsection, the Administrator shall apportion funds made available to carry out this section to entities that have entered into an agreement under subsection (a)(2) in amounts as determined by the Administrator.

(2) Reservation of funds

The Administrator shall reserve not more than 2.5 percent of the amount made available to carry out this section for the Federal Emergency Management Agency for—

- (A) administrative costs incurred in carrying out this section; and
- (B) providing technical assistance to participating entities under subsection (b)(2).

(3) Priority

In the apportionment of capitalization grants under this subsection, the Administrator shall give priority to entity applications under subsection (b) that—

The Administrator may delegate to a participating entity all of the responsibilities for environmental review, decision making, and action pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), and other applicable Federal environmental laws including the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) and the National Historic Preservation Act of 1966 (54 U.S.C. 300101 et seq.) that would apply to the Administrator were the Administrator to undertake projects under this section as Federal projects so long as the participating entity carries out such responsibilities in the same manner and subject to the same requirements as if the Administrator carried out such responsibilities.

(f) Use of funds

(1) Types of assistance

Amounts deposited in an entity loan fund, including loan repayments and interest earned on such amounts, may be used—

- (A) to make loans, on the condition that—
 - (i) such loans are made at an interest rate of not more than 1 percent;

 - (I) not later than 20 years after the date on which the project is completed; or
 - (II) for projects in a low-income geographic area, not later than 30 years after the date on which the project is completed and not longer than the expected design life of the project;
 - (iii) the loan recipient of a loan under this subparagraph establishes a dedicated source of revenue for repayment of the loan;
 - (iv) the loan recipient of a loan under this subparagraph has a hazard mitigation plan that

has been approved by the Administrator; and

(v) the entity loan fund will be credited with all payments of principal and interest on all loans made under this subparagraph;

(B) for mitigation efforts, in addition to mitigation planning under section 5165 of this title not to exceed 10 percent of the capitalization grants made to the participating entity in a fiscal year;

(C) for the reasonable costs of administering the fund and conducting activities under this section, except that such amounts shall not exceed \$100,000 per year, 2 percent of the capitalization grants made to the participating entity in a fiscal year, or 1 percent of the value of the entity loan fund, whichever amount is greatest, plus the amount of any fees collected by the entity for such purpose regardless of the source; and

(D) to earn interest on the entity loan fund.

Except as provided in this subsection, a participating entity may use funds in the entity loan fund to provide financial assistance for projects or activities that mitigate the impacts of natural hazards including—

(A) drought and prolonged episodes of intense heat;

(F) shoreline erosion;

(G) high water levels; and

(H) storm surges.

(4) Zoning and land use planning changes

A participating entity may use not more than 10 percent of a capitalization grant under this section to enable units of local government to implement zoning and land use planning changes focused on—

(A) the development and improvement of zoning and land use codes that incentivize and encourage low-impact development, resilient wildland-urban interface land management and development, natural infrastructure, green stormwater management, conservation areas adjacent to floodplains, implementation of watershed or greenway master plans, and reconnection of floodplains;

(B) the study and creation of agricultural risk compensation districts where there is a desire to remove or set-back levees protecting highly developed agricultural land to mitigate for flooding, allowing agricultural producers to receive compensation for assuming greater flood risk that would alleviate flood exposure to population centers and areas with critical national infrastructure;

(C) the study and creation of land use incentives that reward developers for greater reliance on low impact development stormwater best management practices, exchange density increases for increased open space and improvement of neighborhood catch basins to mitigate urban flooding, reward developers for including and augmenting natural infrastructure adjacent to and

around building projects without reliance on increased sprawl, and reward developers for addressing wildfire ignition; and

(D) the study and creation of an erosion response plan that accommodates river, lake, forest, plains, and ocean shoreline retreating or bluff stabilization due to increased flooding and disaster impacts.

(5) Establishing and carrying out building code enforcement

A participating entity may use capitalization grants under this section to enable units of local government to establish and carry out the latest published editions of relevant building codes, specifications, and standards for the purpose of protecting the health, safety, and general welfare of the building's users against disasters and natural hazards.

(b) Transfer of property

(1) Duty to notify

In the event of the transfer of any property described in paragraph (3), the transferor shall, not later than the date on which such transfer occurs, notify the transferee in writing of the requirements to—

(A) obtain flood insurance in accordance with applicable Federal law with respect to such property, if the property is not so insured as of the date on which the property is transferred; and

(B) maintain flood insurance in accordance with applicable Federal law with respect to such property.

Such written notification shall be contained in documents evidencing the transfer of ownership of

the property.

(2) Failure to notify

If a transferor described in paragraph (1) fails to make a notification in accordance with such paragraph and, subsequent to the transfer of the property—

(A) the transferee fails to obtain or maintain flood insurance in accordance with applicable Federal law with respect to the property,

(B) the property is damaged by a flood disaster, and

(C) Federal disaster relief assistance is provided for the repair, replacement, or restoration of the property as a result of such damage,

the transferor shall be required to reimburse the Federal Government in an amount equal to the amount of the Federal disaster relief assistance provided with respect to the property.

(3) Property described

For purposes of paragraph (1), a property is described in this paragraph if it is personal, commercial, or residential property for which Federal disaster relief assistance made available in a flood disaster area has been provided, prior to the date on which the property is transferred, for repair, replacement, or restoration of the property, if such assistance was conditioned upon obtaining flood insurance in accordance with applicable Federal law with respect to such property.

§5155. Duplication of benefits

(a) General prohibition

The President, in consultation with the head of each Federal agency administering any program providing financial assistance to persons, business concerns, or other entities suffering losses as a result of a major disaster or emergency, shall assure that no such person, business concern, or other entity will receive such assistance with respect to any part of such loss as to which he has received financial assistance under any other program or from insurance or any other source.

(b) Special rules

(1) Limitation

This section shall not prohibit the provision of Federal assistance to a person who is or may be entitled to receive benefits for the same purposes from another source if such person has not received such other benefits by the time of application for Federal assistance and if such person agrees to repay all duplicative assistance to the agency providing the Federal assistance.

(2) Procedures

The President shall establish such procedures as the President considers necessary to ensure uniformity in preventing duplication of benefits.

(3) Effect of partial benefits

Receipt of partial benefits for a major disaster or emergency shall not preclude provision of additional Federal assistance for any part of a loss or need for which benefits have not been provided.

(4) Waiver of general prohibition

(A) In general

The President may waive the general prohibition provided in subsection (a) upon request of a Governor on behalf of the State or on behalf of a person, business concern, or any other entity suffering losses as a result of a major disaster or emergency, if the President finds such waiver is in the public interest and will not result in waste, fraud, or abuse. In making this decision, the President may consider the following:

- (i) The recommendations of the Administrator of the Federal Emergency Management Agency made in consultation with the Federal agency or agencies administering the duplicative program.
- (ii) If a waiver is granted, the assistance to be funded is cost effective.
- (iii) Equity and good conscience.
- (iv) Other matters of public policy considered appropriate by the President.

(B) Grant or denial of waiver

A request under subparagraph (A) shall be granted or denied not later than 45 days after submission of such request.

(C) Prohibition on determination that loan is a duplication

Notwithstanding subsection (c), in carrying out subparagraph (A), the President may not determine that a loan is a duplication of assistance, provided that all Federal assistance is used toward a loss suffered as a result of the major disaster or emergency.

(c) Recovery of duplicative benefits

A person receiving Federal assistance for a major disaster or emergency shall be liable to the United States to the extent that such assistance duplicates benefits available to the person for the same purpose from another source. The agency which provided the duplicative assistance shall collect such duplicative assistance from the recipient in accordance with chapter 37 of title 31, relating to debt collection, when the head of such agency considers it to be in the best interest of the Federal Government.

(d) Assistance not income

Federal major disaster and emergency assistance provided to individuals and families under this chapter, and comparable disaster assistance provided by States, local governments, and disaster

assistance organizations, shall not be considered as income or a resource when determining eligibility for or benefit levels under federally funded income assistance or resource-tested benefit programs.

As part of such request, and as a prerequisite to major disaster assistance under this chapter, the Governor shall take appropriate response action under State law and direct execution of the State's emergency plan. The Governor shall furnish information on the nature and amount of State and local resources which have been or will be committed to alleviating the results of the disaster, and shall certify that, for the current disaster, State and local government obligations and expenditures (of which State commitments must be a significant proportion) will comply with all applicable cost-sharing requirements of this chapter. (c) Cost share adjustments for Indian tribal governments

(1) In general

In providing assistance to an Indian tribal government under this subchapter, the President may waive or adjust any payment of a non-Federal contribution with respect to the assistance if—

(B) the President determines that the waiver or adjustment is necessary and appropriate.

(2) Criteria for making determinations

The President shall establish criteria for making determinations under paragraph (1)(B).

§5171. Federal facilities

(a) Repair, reconstruction, restoration, or replacement of United States facilities

The President may authorize any Federal agency to repair, reconstruct, restore, or replace any facility owned by the United States and under the jurisdiction of such agency which is damaged or destroyed by any major disaster if he determines that such repair, reconstruction, restoration, or replacement is of such importance and urgency that it cannot reasonably be deferred pending the enactment of specific authorizing legislation or the making of an appropriation for such purposes, or the obtaining of congressional committee approval.

(b) Availability of funds appropriated to agency for repair, reconstruction, restoration, or replacement of agency facilities

In order to carry out the provisions of this section, such repair, reconstruction, restoration, or replacement may be begun notwithstanding a lack or an insufficiency of funds appropriated for such purpose, where such lack or insufficiency can be remedied by the transfer, in accordance with law, of funds appropriated to that agency for another purpose.

(c) Steps for mitigation of hazards

In implementing this section, Federal agencies shall evaluate the natural hazards to which these facilities are exposed and shall take appropriate action to mitigate such hazards, including safe land-use and construction practices, in accordance with standards prescribed by the President.

EDITORIAL NOTES

PRIOR PROVISIONS

A prior section 405 of Pub. L. 93–288 was classified to section 5175 of this title prior to repeal by Pub. L. 100–707.

§5172. Repair, restoration, and replacement of damaged facilities

(a) Contributions

(1) In general

The President may make contributions—

(A) to a State or local government for the repair, restoration, reconstruction, or replacement of a public facility damaged or destroyed by a major disaster and for associated expenses incurred by the government; and

(B) subject to paragraph (3), to a person that owns or operates a private nonprofit facility damaged or destroyed by a major disaster for the repair, restoration, reconstruction, or replacement of the facility and for associated expenses incurred by the person.

(2) Associated expenses

For the purposes of this section, associated expenses shall include—

(A) the costs of mobilizing and employing the National Guard for performance of eligible work;

(B) the costs of using prison labor to perform eligible work, including wages actually paid, transportation to a worksite, and extraordinary costs of guards, food, and lodging;

(C) base and overtime wages for the employees and extra hires of a State, local government, or person described in paragraph (1) that perform eligible work, plus fringe benefits on such wages to the extent that such benefits were being paid before the major disaster; and

(D) base and overtime wages for extra hires to facilitate the implementation and enforcement of adopted building codes for a period of not more than 180 days after the major disaster is declared.

(3) Conditions for assistance to private nonprofit facilities

(A) In general

The President may make contributions to a private nonprofit facility under paragraph (1)(B) only if—

- (i) the facility provides critical services (as defined by the President) in the event of a major disaster; or
- (ii) the owner or operator of the facility—
 - (I) has applied for a disaster loan under section 636(b) of title 15; and
 - (II)(aa) has been determined to be ineligible for such a loan; or
 - (bb) has obtained such a loan in the maximum amount for which the Small Business Administration determines the facility is eligible.

(B) Definition of critical services

In this paragraph, the term "critical services" includes power, water (including water provided by an irrigation organization or facility), sewer, wastewater treatment, communications (including broadcast and telecommunications), education, and emergency medical care.

(C) Religious facilities

A church, synagogue, mosque, temple, or other house of worship, educational facility, or any other private nonprofit facility, shall be eligible for contributions under paragraph (1)(B), without regard to the religious character of the facility or the primary religious use of the facility. No house of worship, educational facility, or any other private nonprofit facility may be excluded from receiving contributions under paragraph (1)(B) because leadership or membership in the organization operating the house of worship is limited to persons who share a religious faith or practice.

(4) Notification to Congress

Before making any contribution under this section in an amount greater than \$20,000,000, the President shall notify—

- (A) the Committee on Environment and Public Works of the Senate;
- (B) the Committee on Transportation and Infrastructure of the House of Representatives;
- (C) the Committee on Appropriations of the Senate; and
- (D) the Committee on Appropriations of the House of Representatives.

(b) Federal share

(1) Minimum Federal share

Except as provided in paragraph (2), the Federal share of assistance under this section shall be not less than 75 percent of the eligible cost of repair, restoration, reconstruction, or replacement carried out under this section.

(2) Reduced Federal share

The President shall promulgate regulations to reduce the Federal share of assistance under this section to not less than 25 percent in the case of the repair, restoration, reconstruction, or replacement of any eligible public facility or private nonprofit facility following an event associated with a major disaster—

- (A) that has been damaged, on more than one occasion within the preceding 10-year period, by the same type of event; and
- (B) the owner of which has failed to implement appropriate mitigation measures to address the hazard that caused the damage to the facility.

(3) Increased Federal share

(A) Incentive measures

The President may provide incentives to a State or Tribal government to invest in measures that increase readiness for, and resilience from, a major disaster by recognizing such investments through a sliding scale that increases the minimum Federal share to 85 percent. Such measures may include—

- (i) the adoption of a mitigation plan approved under section 5165 of this title;
- (ii) investments in disaster relief, insurance, and emergency management programs;
- (iii) encouraging the adoption and enforcement of the latest published editions of relevant consensus-based codes, specifications, and standards that incorporate the latest hazard-resistant designs and establish minimum acceptable criteria for the design, construction, and maintenance of residential structures and facilities that may be eligible for assistance under this chapter for the purpose of protecting the health, safety, and general welfare of the buildings' users against disasters;
- (iv) facilitating participation in the community rating system; and
- (v) funding mitigation projects or granting tax incentives for projects that reduce risk.

(B) Comprehensive guidance

Not later than 1 year after February 9, 2018, the President, acting through the Administrator, shall issue comprehensive guidance to State and Tribal governments regarding the measures and investments, weighted appropriately based on actuarial assessments of eligible actions, that will be recognized for the purpose of increasing the Federal share under this section. Guidance shall ensure that the agency's review of eligible measures and investments does not unduly delay determining the appropriate Federal cost share.

(C) Report

One year after the issuance of the guidance required by subparagraph (B), the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Homeland Security and Governmental Affairs of the Senate a report regarding the analysis of the Federal cost shares paid under this section.

(D) Savings clause

Nothing in this paragraph prevents the President from increasing the Federal cost share above 85 percent.

(c) Large in-lieu contributions**(1) For public facilities****(A) In general**

In any case in which a State or local government determines that the public welfare would not best be served by repairing, restoring, reconstructing, or replacing any public facility owned or controlled by the State or local government, the State or local government may elect to receive, in lieu of a contribution under subsection (a)(1)(A), a contribution in an amount equal to the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

(B) Use of funds

Funds contributed to a State or local government under this paragraph may be used—

- (i) to repair, restore, or expand other selected public facilities;
- (ii) to construct new facilities; or
- (iii) to fund hazard mitigation measures that the State or local government determines to be necessary to meet a need for governmental services and functions in the area affected by the major disaster.

(C) Limitations

Funds made available to a State or local government under this paragraph may not be used for—

- (i) any public facility located in a regulatory floodway (as defined in section 59.1 of title 44, Code of Federal Regulations (or a successor regulation)); or
- (ii) any uninsured public facility located in a special flood hazard area identified by the Administrator of the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.).

(2) For private nonprofit facilities

(A) In general

In any case in which a person that owns or operates a private nonprofit facility determines that the public welfare would not best be served by repairing, restoring, reconstructing, or replacing the facility, the person may elect to receive, in lieu of a contribution under subsection (a)(1)(B), a contribution in an amount equal to the Federal share of the Federal estimate of the cost of repairing, restoring, reconstructing, or replacing the facility and of management expenses.

(B) Use of funds

Funds contributed to a person under this paragraph may be used—

- (i) to repair, restore, or expand other selected private nonprofit facilities owned or operated by the person;
- (ii) to construct new private nonprofit facilities to be owned or operated by the person; or
- (iii) to fund hazard mitigation measures that the person determines to be necessary to meet a need for the person's services and functions in the area affected by the major disaster.

(C) Limitations

Funds made available to a person under this paragraph may not be used for—

- (i) any private nonprofit facility located in a regulatory floodway (as defined in section 59.1 of title 44, Code of Federal Regulations (or a successor regulation)); or
- (ii) any uninsured private nonprofit facility located in a special flood hazard area identified by the Administrator of the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.).

(d) Flood insurance

(1) Reduction of Federal assistance

If a public facility or private nonprofit facility located in a special flood hazard area identified for more than 1 year by the Administrator pursuant to the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.) is damaged or destroyed, after the 180th day following November 23, 1988, by flooding in a major disaster and such facility is not covered on the date of such flooding by flood insurance, the Federal assistance which would otherwise be available under this section with respect to repair, restoration, reconstruction, and replacement of such facility and associated expenses shall be reduced in accordance with paragraph (2). This section shall not apply to more than one building of a multi-structure educational, law enforcement, correctional, fire, or medical campus, for any major disaster or emergency declared by the President under section 5170 or 5191, respectively, of this title on or after January 1, 2016, through December 31, 2018.

(2) Amount of reduction

The amount of a reduction in Federal assistance under this section with respect to a facility shall be the lesser of—

- (A) the value of such facility on the date of the flood damage or destruction, or
- (B) the maximum amount of insurance proceeds which would have been payable with respect to such facility if such facility had been covered by flood insurance under the National Flood Insurance Act of 1968 on such date.

(3) Exception

Paragraphs (1) and (2) shall not apply to a private nonprofit facility which is not covered by flood insurance solely because of the local government's failure to participate in the flood

insurance program established by the National Flood Insurance Act.

(4) Dissemination of information

The President shall disseminate information regarding the reduction in Federal assistance provided for by this subsection to State and local governments and the owners and operators of private nonprofit facilities who may be affected by such a reduction.

(e) Eligible cost

(1) Determination

(A) In general

For the purposes of this section, for disasters declared on or after August 1, 2017, or a disaster in which a cost estimate has not yet been finalized for a project, or for any project for which the finalized cost estimate is on appeal, the President shall estimate the eligible cost of repairing, restoring, reconstructing, or replacing a public facility or private nonprofit facility—

(i) on the basis of the design of the facility as the facility existed immediately before the major disaster;

(ii) in conformity with the latest published editions of relevant consensus-based codes, specifications, and standards that incorporate the latest hazard-resistant designs and establish minimum acceptable criteria for the design, construction, and maintenance of residential structures and facilities that may be eligible for assistance under this chapter for the purposes of protecting the health, safety, and general welfare of a facility's users against disasters (including floodplain management and hazard mitigation criteria required by the President or under the Coastal Barrier Resources Act (16 U.S.C. 3501 et seq.)); and

(iii) in a manner that allows the facility to meet the definition of resilient developed pursuant to this subsection.

(B) Cost estimation procedures

(i) In general

Subject to paragraph (2), the President shall use the cost estimation procedures established under paragraph (3) to determine the eligible cost under this subsection.

(ii) Applicability

The procedures specified in this paragraph and paragraph (2) shall apply only to projects the eligible cost of which is equal to or greater than the amount specified in section 5189 of this title.

(C) Contributions

Contributions for the eligible cost made under this section may be provided on an actual cost basis or on cost-estimation procedures.

(2) Modification of eligible cost

(A) Actual cost greater than ceiling percentage of estimated cost

In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is greater than the ceiling percentage established under paragraph (3) of the cost estimated under paragraph (1), the President may determine that the eligible cost includes a portion of the actual cost of the repair, restoration, reconstruction, or replacement that exceeds the cost estimated under paragraph (1).

(B) Actual cost less than estimated cost

(i) Greater than or equal to floor percentage of estimated cost

In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is less than 100 percent of the cost estimated under paragraph (1), but is greater than or equal to the floor percentage established under paragraph (3) of the cost estimated under paragraph (1), the State or local government or person receiving funds under

this section shall use the excess funds to carry out cost-effective activities that reduce the risk of future damage, hardship, or suffering from a major disaster.

(ii) Less than floor percentage of estimated cost

In any case in which the actual cost of repairing, restoring, reconstructing, or replacing a facility under this section is less than the floor percentage established under paragraph (3) of the cost estimated under paragraph (1), the State or local government or person receiving assistance under this section shall reimburse the President in the amount of the difference.

(C) No effect on appeals process

Nothing in this paragraph affects any right of appeal under section 5189a of this title.

(3) Expert panel

(A) Establishment

Not later than 18 months after October 30, 2000, the President, acting through the Administrator of the Federal Emergency Management Agency, shall establish an expert panel, which shall include representatives from the construction industry and State and local government.

(B) Duties

The expert panel shall develop recommendations concerning—

- (i) procedures for estimating the cost of repairing, restoring, reconstructing, or replacing a facility consistent with industry practices; and
- (ii) the ceiling and floor percentages referred to in paragraph (2).

(C) Regulations

Taking into account the recommendations of the expert panel under subparagraph (B), the President shall promulgate regulations that establish—

- (i) cost estimation procedures described in subparagraph (B)(i); and
- (ii) the ceiling and floor percentages referred to in paragraph (2).

(D) Review by President

Not later than 2 years after the date of promulgation of regulations under subparagraph (C) and periodically thereafter, the President shall review the cost estimation procedures and the ceiling and floor percentages established under this paragraph.

(E) Report to Congress

Not later than 1 year after the date of promulgation of regulations under subparagraph (C), 3 years after that date, and at the end of each 2-year period thereafter, the expert panel shall submit to Congress a report on the appropriateness of the cost estimation procedures.

(4) Special rule

In any case in which the facility being repaired, restored, reconstructed, or replaced under this section was under construction on the date of the major disaster, the cost of repairing, restoring, reconstructing, or replacing the facility shall include, for the purposes of this section, only those costs that, under the contract for the construction, are the owner's responsibility and not the contractor's responsibility.

(5) New rules

(A) In general

Not later than 18 months after October 5, 2018, the President, acting through the Administrator of the Federal Emergency Management Agency, and in consultation with the heads of relevant Federal departments and agencies, shall issue a final rulemaking that defines the terms "resilient" and "resiliency" for purposes of this subsection.

(B) Interim guidance

Not later than 60 days after October 5, 2018, the Administrator shall issue interim guidance to implement this subsection. Such interim guidance shall expire 18 months after October 5, 2018, or upon issuance of final regulations pursuant to subparagraph (A), whichever occurs first.

(C) Guidance

Not later than 90 days after the date on which the Administrator issues the final rulemaking under this paragraph, the Administrator shall issue any necessary guidance related to the rulemaking.

(D) Report

Not later than 2 years after October 5, 2018, the Administrator shall submit to Congress a report summarizing the regulations and guidance issued pursuant to this paragraph.

SUBCHAPTER IV–A—EMERGENCY ASSISTANCE PROGRAMS

§5191. Procedure for declaration

(a) Request and declaration

All requests for a declaration by the President that an emergency exists shall be made by the Governor of the affected State. Such a request shall be based on a finding that the situation is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments and that Federal assistance is necessary. As a part of such request, and as a prerequisite to emergency assistance under this chapter, the Governor shall take appropriate action under State law and direct execution of the State's emergency plan. The Governor shall furnish

information describing the State and local efforts and resources which have been or will be used to alleviate the emergency, and will define the type and extent of Federal aid required. Based upon such Governor's request, the President may declare that an emergency exists.

(b) Certain emergencies involving Federal primary responsibility

The President may exercise any authority vested in him by section 5192 of this title or section 5193 of this title with respect to an emergency when he determines that an emergency exists for which the primary responsibility for response rests with the United States because the emergency involves a subject area for which, under the Constitution or laws of the United States, the United States exercises exclusive or preeminent responsibility and authority. In determining whether or not such an emergency exists, the President shall consult the Governor of any affected State, if practicable. The President's determination may be made without regard to subsection (a).

(c) Indian tribal government requests

(1) In general

The Chief Executive of an affected Indian tribal government may submit a request for a declaration by the President that an emergency exists consistent with the requirements of subsection (a).

(2) References

In implementing assistance authorized by the President under this subchapter in response to a request of the Chief Executive of an affected Indian tribal government for an emergency declaration, any reference in this subchapter or subchapter III (except sections 5153 and 5165d of this title) to a State or the Governor of a State is deemed to refer to an affected Indian tribal government or the Chief Executive of an affected Indian tribal government, as appropriate.

(3) Savings provision

Nothing in this subsection shall prohibit an Indian tribal government from receiving assistance under this subchapter through a declaration made by the President at the request of a State under subsection (a) if the President does not make a declaration under this subsection for the same incident.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I transmit herewith Reorganization Plan No. 1 of 1958, prepared in accordance with the Reorganization Act of 1949, as amended. The reorganization plan provides new arrangements for the conduct of Federal defense mobilization and civil defense functions.

In formulating Reorganization Plan No. 1, I have had the benefit of several studies made by the executive branch as well as those conducted by the Congress. The reorganization plan will overcome the major difficulties revealed by those studies and mentioned in my 1959 budget message where I made the following statement:

The structure of Federal organization for the planning, coordination, and conduct of our nonmilitary defense programs has been reviewed, and I have concluded that the existing statutes assigning responsibilities for the central coordination and direction of these programs are out of date. The rapid technical advances of military science have led to a serious overlap among agencies carrying on these leadership and planning functions. Because the situation will continue to change and because these functions transcend the responsibility of any single department or agency, I have concluded that they should be vested in no one short of the President. I will make recommendations to the Congress on this subject.

The principal effects of the organization plan are—

First, it transfers to the President the functions vested by law in the Federal Civil Defense Administration and those so vested in the Office of Defense Mobilization. The result is to establish a single pattern with respect to the vesting of defense mobilization and civil defense functions. At the present time disparity exists in that civil defense functions are vested in the President only to a limited degree while a major part of the functions administered by the Office of Defense Mobilization are vested by law in the President and delegated by him to that Office. Under the plan, the broad program responsibilities for coordinating and conducting the interrelated defense mobilization and civil defense functions will be vested in the President for appropriate delegation as the rapidly changing character of the nonmilitary preparedness program warrants.

Second, the reorganization plan consolidates the Office of Defense Mobilization and the Federal Civil Defense Administration to form a new Office of Defense and Civilian Mobilization in the Executive Office of the President. I have concluded that, in many instances, the interests and activities of the Office of Defense Mobilization and the Federal Civil Defense Administration overlap to such a degree that it is not possible to work out a satisfactory division of those activities and interests between the two agencies. I have also concluded that a single civilian mobilization agency of appropriate stature and authority is needed and that such an agency will ensue from the consolidation and from the granting of suitable authority to that agency for directing and coordinating the preparedness activities of the Federal departments and agencies and for providing unified guidance and assistance to the State and local governments.

Third, the reorganization plan transfers the membership of the Director of the Office of Defense Mobilization on the National Security Council to the Director of the Office of Defense and Civilian Mobilization and also transfers the Civil Defense Advisory Council to the Office of Defense and Civilian Mobilization.

Initially, the Office of Defense and Civilian Mobilization will perform the civil defense and defense mobilization functions now performed by the Office of Defense Mobilization and the Federal Civil Defense Administration. One of its first tasks will be to advise me with respect to the actions to be taken to clarify and expand the roles of the Federal departments and agencies in carrying out nonmilitary defense preparedness functions. After such actions are taken, the direction and coordination of the civil defense and defense mobilization activities assigned to the departments and agencies will comprise a principal remaining responsibility of the Office of Defense and Civilian Mobilization.

After investigation, I have found and hereby declare that each reorganization included in Reorganization Plan No. 1 of 1958 is necessary to accomplish one or more of the purposes set forth in section 2(a) of the Reorganization Act of 1949, as amended.

I have also found and hereby declare that it is necessary to include in the accompanying reorganization plan, by reason of reorganizations made thereby, provisions for the appointment and compensation of new officers specified in sections 2 and 3 of the plan. The rates of compensation fixed for these officers are, respectively those which I have found to prevail in respect of comparable officers in the executive branch of the Government.

The taking effect of the reorganizations included in Reorganization Plan No. 1 of 1958 will immediately reduce the number of Federal agencies by one and, by providing sounder organizational arrangements for the administration of the affected functions, should promote the increased economy and effectiveness of the Federal expenditures concerned. It is, however, impracticable to itemize at this time the reduction of expenditures which it is probable will be brought about by such taking effect.

I urge that the Congress allow the reorganization plan to become effective.

DWIGHT D. EISENHOWER.

THE WHITE HOUSE, April 24, 1958.

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

On January 5 I announced a three-part program to streamline the executive branch of the Federal Government. By concentrating less responsibility in the President's immediate staff and more in the hands of the departments and agencies, this program should significantly improve the services of the Government. I believe these reforms have become so urgently necessary that I intend, with the cooperation of the Congress, to pursue them with all of the resources of my office during the coming year.

The first part of this program is a renewed drive to achieve passage of my legislative proposals to overhaul the Cabinet departments. Secondly, I have appointed three Cabinet Secretaries as Counsellors to the President with coordinating responsibilities in the broad areas of human resources, natural resources, and community development, and five Assistants to the President with special responsibilities in the areas of domestic affairs, economic affairs, foreign affairs, executive management, and operations of the White House.

The third part of this program is a sharp reduction in the overall size of the Executive Office of the President and a reorientation of that office back to its original mission as a staff for top-level policy formation and monitoring of policy execution in broad functional areas. The Executive Office of the President should no longer be encumbered with the task of managing or administering programs which can be run more effectively by the departments and agencies. I have therefore concluded that a number of specialized operational and program functions should be shifted out of the Executive Office into the line departments and agencies of the Government. Reorganization Plan No. 1 of 1973, transmitted herewith, would effect such changes with respect to emergency preparedness functions and scientific and technological affairs.

STREAMLINING THE FEDERAL SCIENCE ESTABLISHMENT

When the National Science Foundation was established by an act of the Congress in 1950, its statutory responsibilities included evaluation of the Government's scientific research programs and development of basic science policy. In the late 1950's, however, with the effectiveness of the U.S. science effort under serious scrutiny as a result of sputnik, the post of Science Advisor to the President was established. The White House became increasingly involved in the evaluation and coordination of research and development programs and in science policy matters, and that involvement was institutionalized in 1962 when a reorganization plan established the Office of Science and Technology within the Executive Office of the President, through transfer of authorities formerly vested in the National Science Foundation.

With advice and assistance from OST during the past decade; the scientific and technological capability of the Government has been markedly strengthened. This administration is firmly committed to a sustained, broadbased national effort in science and technology, as I made plain last year in the first special message on the subject ever sent by a President to the Congress. The research and development capability of the various executive departments and agencies, civilian as well as defense, has been upgraded. The National Science Foundation has broadened from its earlier concentration on basic research support to take on a significant role in applied research as well. It has matured in its ability to play a coordinating and evaluative role within the Government and between the public and private sectors.

I have therefore concluded that it is timely and appropriate to transfer to the Director of the National Science Foundation all functions presently vested in the Office of Science and Technology, and to abolish that office. Reorganization Plan No. 1 would effect these changes.

The multi-disciplinary staff resources of the Foundation will provide analytic capabilities for performance of the transferred functions. In addition, the Director of the Foundation will be able to draw on expertise from all of the Federal agencies, as well as from outside the Government, for assistance in carrying out his new responsibilities.

It is also my intention, after the transfer of responsibilities is effected, to ask Dr. H. Guyford Stever, the current Director of the Foundation, to take on the additional post of Science Adviser. In this capacity, he would advise and assist the White House, Office of Management and Budget, Domestic Council, and other entities within the Executive Office of the President on matters where scientific and technological expertise is called for, and would act as the President's representative in selected cooperative programs in international scientific affairs, including chairing such joint bodies as the U.S.—U.S.S.R. Joint Commission on Scientific and Technical Cooperation.

In the case of national security, the Department of Defense has strong capabilities for assessing weapons needs and for undertaking new weapons development, and the President will continue to draw primarily on this source for advice regarding military technology. The President in special situations also may seek independent studies or assessments concerning military technology from within or outside the Federal establishment, using the machinery of the National Security Council for this purpose, as well as the Science Adviser when appropriate.

In one special area of technology—space and aeronautics—a coordinating council has existed within the Executive Office of the President since 1958. This body, the National Aeronautics and Space Council, met a major need during the evolution of our nation's space program. Vice President Agnew has served with distinction as its chairman for the past four years. At my request, beginning in 1969, the Vice President also chaired a special Space Task Group charged with developing strategy alternatives for a balanced U.S. space program in the coming years.

As a result of this work, basic policy issues in the United States space effort have been resolved, and the necessary interagency relationships have been established. I have therefore concluded, with the Vice President's concurrence, that the Council can be discontinued. Needed policy coordination can now be achieved through the resources of the executive departments and agencies, such as the National Aeronautics and Space Administration, augmented by some of the former Council staff. Accordingly, my reorganization plan proposes the abolition of the National Aeronautics and Space Council.

A NEW APPROACH TO EMERGENCY PREPAREDNESS

The organization within the Executive Office of the President which has been known in recent years as the Office of Emergency Preparedness dates back, through its numerous predecessor agencies, more than 20 years. It has performed valuable functions in developing plans for emergency preparedness, in administering Federal disaster relief, and in overseeing and assisting the agencies in this area.

OEP's work as a coordinating and supervisory authority in this field has in fact been so effective—particularly under the leadership of General George A. Lincoln, its director for the past four years, who retired earlier this month after an exceptional military and public service career—that the line departments and agencies which in the past have shared in the performance of the various preparedness functions now possess the capability to assume full responsibility for those functions. In the interest of efficiency and economy, we can now further streamline the Executive Office of the President by formally relocating those responsibilities and closing the Office of Emergency Preparedness.

I propose to accomplish this reform in two steps. First, Reorganization Plan No. 1 would transfer to the President all functions previously vested by law in the Office or its Director, except the Director's role as a member of the National Security Council, which would be abolished; and it would abolish the Office of Emergency Preparedness.

The functions to be transferred to the President from OEP are largely incidental to emergency authorities already vested in him. They include functions under the Disaster Relief Act of 1970 [42 U.S.C. 4401 et seq.]; the function of determining whether a major disaster has occurred within the meaning of (1) Section 7 of the Act of September 30, 1950, as amended, 20 U.S.C. 241–1, or (2) Section 762(a) of the Higher Education Act of 1965, as added by Section 161(a) of the Education Amendments of 1972, Public Law 92–318, 86 Stat. 288 at 299 (relating to the furnishing by the Commissioner of Education of disaster relief assistance for educational purposes) [20 U.S.C. 1132d–1]; and functions under Section 232 of the Trade Expansion Act of 1962, as amended (19 U.S.C. 1862), with respect to the conduct of investigations to determine the effects on national security of the importation of certain articles.

The Civil Defense Advisory Council within OEP would also be abolished by this plan, as changes in domestic and international conditions since its establishment in 1950 have now obviated the need for a standing council of this type. Should advice of the kind the Council has provided be required again in the future, State and local officials and experts in the field can be consulted on an ad hoc basis.

Second, as soon as the plan became effective, I would delegate OEP's former functions as follows:

All OEP responsibilities having to do with preparedness for and relief of civil emergencies and disasters would be transferred to the Department of Housing and Urban Development. This would provide greater field capabilities for coordination of Federal disaster assistance with that provided by States and local communities, and would be in keeping with the objective of creating a broad, new Department of Community Development.

OEP's responsibilities for measures to ensure the continuity of civil government operations in the event of major military attack would be reassigned to the General Services Administration, as would responsibility for resource mobilization including the management of national security stockpiles, with policy guidance in both cases to be provided by the National Security Council, and with economic considerations relating to changes in stockpile levels to be coordinated by the Council on Economic Policy.

Investigations of imports which might threaten the national security—assigned to OEP by Section 232 of the Trade Expansion Act of 1962 [19 U.S.C. 1862]—would be reassigned to the Treasury Department, whose other trade studies give it a readymade capability in this field; the National Security Council would maintain its supervisory role over strategic imports.

Those disaster relief authorities which have been reserved to the President in the past, such as the authority

to declare major disasters, will continue to be exercised by him under these new arrangements. In emergency situations calling for rapid interagency coordination, the Federal response will be coordinated by the Executive Office of the President under the general supervision of the Assistant to the President in charge of executive management.

The Oil Policy Committee will continue to function as in the past, unaffected by this reorganization, except that I will designate the Deputy Secretary of the Treasury as chairman in place of the Director of OEP. The committee will operate under the general supervision of the Assistant to the President in charge of economic affairs.

DECLARATIONS

After investigation, I have found that each action included in the accompanying plan is necessary to accomplish one or more of the purposes set forth in Section 901(a) of title 5 of the United States Code. In particular, the plan is responsive to the intention of the Congress as expressed in Section 901(a)(1), "to promote better execution of the laws, more effective management of the executive branch and of its agencies and functions, and expeditious administration of the public business;" and in Section 901(a)(3), "to increase the efficiency of the operations of the Government to the fullest extent practicable;" and in Section 901(a)(5), "to reduce the number of agencies by consolidating those having similar functions under a single head, and to abolish such agencies or functions as may not be necessary for the efficient conduct of the Government."

While it is not practicable to specify all of the expenditure reductions and other economies which will result from the actions proposed, personnel and budget savings from abolition of the National Aeronautics and Space Council and the Office of Science and Technology alone will exceed \$2 million annually, and additional savings should result from a reduction of Executive Pay Schedule positions now associated with other transferred and delegated functions.

The plan has as its one logically consistent subject matter the streamlining of the Executive Office of the President and the disposition of major responsibilities currently conducted in the Executive Office of the President, which can better be performed elsewhere or abolished.

The functions which would be abolished by this plan, and the statutory authorities for each, are:

(1) the functions of the Director of the Office of Emergency Preparedness with respect to being a member of the National Security Council (Sec. 101, National Security Act of 1947, as amended, 50 U.S.C. 402 [now 50 U.S.C. 3021]; and Sec. 4, Reorganization Plan No. 1 of 1958);

(2) the functions of the Civil Defense Advisory Council (Sec. 102(a) Federal Civil Defense Act of 1950; [former] 50 U.S.C. App. 2272(a)); and

(3) the functions of the National Aeronautics and Space Council (Sec. 201, National Aeronautics and Space Act of 1958; 42 U.S.C. 2471).

The proposed reorganization is a necessary part of the restructuring of the Executive Office of the President. It would provide through the Director of the National Science Foundation a strong focus for Federal efforts to encourage the development and application of science and technology to meet national needs. It would mean better preparedness for and swifter response to civil emergencies, and more reliable precautions against threats to the national security. The leaner and less diffuse Presidential staff structure which would result would enhance the President's ability to do his job and would advance the interests of the Congress as well.

I am confident that this reorganization plan would significantly increase the overall efficiency and effectiveness of the Federal Government. I urge the Congress to allow it to become effective.

RICHARD NIXON.

EX. ORD. NO. 13010. CRITICAL INFRASTRUCTURE PROTECTION

Ex. Ord. No. 13010, July 15, 1996, 61 F.R. 37347, as amended by Ex. Ord. No. 13025, Nov. 13, 1996, 61 F.R. 58623; Ex. Ord. No. 13041, Apr. 3, 1997, 62 F.R. 17039; Ex. Ord. No. 13064, Oct. 11, 1997, 62 F.R. 53711; Ex. Ord. No. 13077, Mar. 10, 1998, 63 F.R. 12381; Ex. Ord. No. 13138, §3(c), Sept. 30, 1999, 64 F.R. 53880, provided:

Certain national infrastructures are so vital that their incapacity or destruction would have a debilitating impact on the defense or economic security of the United States. These critical infrastructures include telecommunications, electrical power systems, gas and oil storage and transportation, banking and finance, transportation, water supply systems, emergency services (including medical, police, fire, and rescue), and continuity of government. Threats to these critical infrastructures fall into two categories: physical threats to tangible property ("physical threats"), and threats of electronic, radio-frequency, or computer-based attacks on the information or communications components that control critical infrastructures ("cyber threats"). Because many of these critical infrastructures are owned and operated by the private sector, it is essential that the government and private sector work together to develop a strategy for protecting them and assuring their continued operation.

NOW, THEREFORE, by the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. *Establishment.* There is hereby established the President's Commission on Critical Infrastructure Protection ("Commission").

(a) *Chair.* A qualified individual from outside the Federal Government shall be designated by the President from among the members to serve as Chair of the Commission. The Commission Chair shall be employed on a full-time basis.

(b) *Members.* The head of each of the following executive branch departments and agencies shall nominate not more than two full-time members of the Commission:

- (i) Department of the Treasury;
- (ii) Department of Justice;
- (iii) Department of Defense;
- (iv) Department of Commerce;
- (v) Department of Transportation;
- (vi) Department of Energy;
- (vii) Central Intelligence Agency;
- (viii) Federal Emergency Management Agency;
- (ix) Federal Bureau of Investigation;
- (x) National Security Agency.

One of the nominees of each agency may be an individual from outside the Federal Government who shall be employed by the agency on a full-time basis. Each nominee must be approved by the Steering Committee.

SEC. 2. *The Principals Committee.* The Commission shall report to the President through a Principals Committee ("Principals Committee"), which shall review any reports or recommendations before submission to the President. The Principals Committee shall comprise the:

- (i) Secretary of the Treasury;
- (ii) Secretary of Defense;
- (iii) Attorney General;
- (iv) Secretary of Commerce;
- (v) Secretary of Transportation;
- (vi) Secretary of Energy;
- (vii) Director of Central Intelligence;
- (viii) Director of the Office of Management and Budget;
- (ix) Director of the Federal Emergency Management Agency;
- (x) Assistant to the President for National Security Affairs;
- (xi) Assistant to the Vice President for National Security Affairs.[:]
- (xii) Assistant to the President for Economic Policy and Director of the National Economic Council; and
- (xiii) Assistant to the President and Director of the Office of Science and Technology Policy.

SEC. 3. *The Steering Committee of the President's Commission on Critical Infrastructure Protection.* A Steering Committee ("Steering Committee") shall oversee the work of the Commission on behalf of the

Principals Committee. The Steering Committee shall comprise [sic] five members. Four of the members shall be appointed by the President, and the fifth member shall be the Chair of the Commission. Two of the members of the Committee shall be employees of the Executive Office of the President. The Steering Committee will receive regular reports on the progress of the Commission's work and approve the submission of reports to the Principals Committee.

SEC. 4. *Mission.* The Commission shall: (a) within 30 days of this order, produce a statement of its mission objectives, which will elaborate the general objectives set forth in this order, and a detailed schedule for addressing each mission objective, for approval by the Steering Committee;

(b) identify and consult with: (i) elements of the public and private sectors that conduct, support, or contribute to infrastructure assurance; (ii) owners and operators of the critical infrastructures; and (iii) other elements of the public and private sectors, including the Congress, that have an interest in critical infrastructure assurance issues and that may have differing perspectives on these issues;

(c) assess the scope and nature of the vulnerabilities of, and threats to, critical infrastructures;

(d) determine what legal and policy issues are raised by efforts to protect critical infrastructures and assess how these issues should be addressed;

(e) recommend a comprehensive national policy and implementation strategy for protecting critical infrastructures from physical and cyber threats and assuring their continued operation;

(f) propose any statutory or regulatory changes necessary to effect its recommendations; and

(g) produce reports and recommendations to the Steering Committee as they become available; it shall not limit itself to producing one final report.

SEC. 5. [Revoked by Ex. Ord. No. 13138, §3(c), Sept. 30, 1999, 64 F.R. 53880.]

SEC. 6. *Administration.* (a) All executive departments and agencies shall cooperate with the Commission and provide such assistance, information, and advice to the Commission as it may request, to the extent permitted by law.

(b) The Commission and the Advisory Committee may hold open and closed hearings, conduct inquiries, and establish subcommittees, as necessary.

(c) Members of the Advisory Committee shall serve without compensation for their work on the Advisory Committee. While engaged in the work of the Advisory Committee, members may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in the government service.

(d) To the extent permitted by law, and subject to the availability of appropriations, the Department of Defense shall provide the Commission and the Advisory Committee with administrative services, staff, other support services, and such funds as may be necessary for the performance of its functions and shall reimburse the executive branch components that provide representatives to the Commission for the compensation of those representatives.

(e) In order to augment the expertise of the Commission, the Department of Defense may, at the Commission's request, contract for the services of nongovernmental consultants who may prepare analyses, reports, background papers, and other materials for consideration by the Commission. In addition, at the Commission's request, executive departments and agencies shall request that existing Federal advisory committees consider and provide advice on issues of critical infrastructure protection, to the extent permitted by law.

(f) The Commission shall terminate 1 year and 90 days from the date of this order, unless extended by the President prior to that date. The Principals Committee, the Steering Committee, and the Advisory Committee shall terminate no later than September 30, 1998, and, upon submission of the Commission's report, shall review the report and prepare appropriate recommendations to the President.

(g) The person who served as Chair of the Commission may continue to be a member of the Steering Committee after termination of the Commission.

SEC. 7. *Review of Commission's Report.* (a) Upon the termination of the Commission as set out in section 6(f) of this order, certain of the Commission's staff may be retained no later than September 30, 1998, solely to assist the Principals, Steering, and Advisory Committees in reviewing the Commission's report and preparing recommendations to the President. They shall act under the direction of the Steering Committee or its designated agent. The Department of Defense shall continue to provide funding and administrative support for the retained Commission staff.

(b) Pursuant to [former] Executive Order 12958, I hereby designate the Executive Secretary of the National Security Council to exercise the authority to classify information originally as "Top Secret" with respect to the work of the Commission staff, the Principals Committee, the Steering Committee, the Advisory Committee, and the Infrastructure Protection Task Force.

SEC. 8. *Interim Coordinating Mission.* (a) While the Commission is conducting its analysis and until the

President has an opportunity to consider and act on its recommendations, there is a need to increase coordination of existing infrastructure protection efforts in order to better address, and prevent, crises that would have a debilitating regional or national impact. There is hereby established an Infrastructure Protection Task Force ("IPTF") within the Department of Justice, chaired by the Federal Bureau of Investigation, to undertake this interim coordinating mission.

(b) The IPTF will not supplant any existing programs or organizations.

(c) The Steering Committee shall oversee the work of the IPTF.

(d) The IPTF shall include at least one full-time member each from the Federal Bureau of Investigation, the Department of Defense, and the National Security Agency. It shall also receive part-time assistance from other executive branch departments and agencies. Members shall be designated by their departments or agencies on the basis of their expertise in the protection of critical infrastructures. IPTF members' compensation shall be paid by their parent agency or department.

(e) The IPTF's function is to identify and coordinate existing expertise, inside and outside of the Federal Government, to:

(i) provide, or facilitate and coordinate the provision of, expert guidance to critical infrastructures to detect, prevent, halt, or confine an attack and to recover and restore service;

(ii) issue threat and warning notices in the event advance information is obtained about a threat;

(iii) provide training and education on methods of reducing vulnerabilities and responding to attacks on critical infrastructures;

(iv) conduct after-action analysis to determine possible future threats, targets, or methods of attack; and

(v) coordinate with the pertinent law enforcement authorities during or after an attack to facilitate any resulting criminal investigation.

(f) All executive departments and agencies shall cooperate with the IPTF and provide such assistance, information, and advice as the IPTF may request, to the extent permitted by law.

(g) All executive departments and agencies shall share with the IPTF information about threats and warning of attacks, and about actual attacks on critical infrastructures, to the extent permitted by law.

(h) The IPTF shall terminate no later than 180 days after the termination of the Commission, unless extended by the President prior to that date.

SEC. 9. *General.* (a) This order is not intended to change any existing statutes or Executive orders.

(b) This order is not intended to create any right, benefit, trust, or responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its agencies, its officers, or any person.

WILLIAM J. CLINTON.

No. 13138, §3(c), Sept. 30, 1999, 64 F.R. 53880, formerly set out as a note under section 14 of the Federal Advisory Committee Act in the Appendix to Title 5, Government Organization and Employees, revoked "Section 5 and that part of section 6(f) of Executive Order 13010, as amended by section 3 of Executive Order 13025, Executive Order 13041, sections 1, 2, and that part of section 3 of Executive Order 13064, and Executive Order 13077, establishing the Advisory Committee to the President's Commission on Critical Infrastructure Protection".]

EXECUTIVE ORDER NO. 13130

Ex. Ord. No. 13130, July 14, 1999, 64 F.R. 38535, which established the National Infrastructure Assurance Council, was revoked by Ex. Ord. No. 13231, §10(e)(iii), Oct. 16, 2001, 66 F.R. 53070, set out as a note under section 121 of Title 6, Domestic Security.

EX. ORD. NO. 13151. GLOBAL DISASTER INFORMATION NETWORK

Ex. Ord. No. 13151, Apr. 27, 2000, 65 F.R. 25619, as amended by Ex. Ord. No. 13284, §5, Jan. 23, 2003, 68 F.R. 4075, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to establish a Global Disaster Information Network to use information technology more effectively to reduce loss of life and property from natural and man-made disasters, it is hereby ordered as follows:

SECTION 1. *Policy.* (a) It is the policy of this Administration to use information technology more effectively to coordinate the Federal Government's collection and dissemination of information to appropriate response agencies and State governments to prepare for and respond to natural and man-made disasters (disasters). As a result of changing population demographics in our coastal, rural, and urban areas over the past decades, the loss of life and property (losses) from disasters has nearly doubled. One of the ways the Federal Government can reduce these losses is to use technology more effectively to coordinate its collection

and dissemination (hereafter referred to collectively as "provision") of information which can be used in both planning for and recovering from disasters. While many agencies provide disaster-related information, they may not always provide it in a coordinated manner. To improve the provision of disaster-related information, the agencies shall, as set out in this order, use information technology to coordinate the Federal Government's provision of information to prepare for, respond to, and recover from domestic disasters.

(b) It is also the policy of this Administration to use information technology and existing channels of disaster assistance to improve the Federal Government's provision of information that could be helpful to foreign governments preparing for or responding to foreign disasters. Currently, the United States Government provides disaster-related information to foreign governments and relief organizations on humanitarian grounds at the request of foreign governments and where appropriate. This information is supplied by Federal agencies on an ad hoc basis. To increase the effectiveness of our response to foreign disasters, agencies shall, where appropriate, use information technology to coordinate the Federal Government's provision of disaster-related information to foreign governments.

(c) To carry out the policies in this order, there is established the Global Disaster Information Network (Network). The Network is defined as the coordinated effort by Federal agencies to develop a strategy and to use existing technical infrastructure, to the extent permitted by law and subject to the availability of appropriations and under the guidance of the Interagency Coordinating Committee and the Committee Support Office, to make more effective use of information technology to assist our Government, and foreign governments where appropriate, by providing disaster-related information to prepare for and respond to disasters.

SEC. 2. *Establishment.* (a) There is established an Interagency Coordinating Committee (Committee) to provide leadership and oversight for the development of the Network. The Office of the Vice President, the Department of Commerce through the National Oceanic and Atmospheric Administration, and the Department of State, respectively, shall designate a representative to serve as Co-chairpersons of the Committee. The Committee membership shall comprise representatives from the following departments and agencies:

- (1) Department of State;
- (2) Department of Defense;
- (3) Department of the Interior;
- (4) Department of Agriculture;
- (5) Department of Commerce;
- (6) Department of Transportation;
- (7) Department of Energy;
- (8) Department of Homeland Security;
- (9) Office of Management and Budget;
- (10) Environmental Protection Agency;
- (11) National Aeronautics and Space Administration;
- (12) United States Agency for International Development;
- (13) Federal Emergency Management Agency; and
- (14) Central Intelligence Agency.

At the discretion of the Co-chairpersons of the Committee, other agencies may be added to the Committee membership. The Committee shall include an Executive Secretary to effect coordination between the Co-chairpersons of the Committee and the Committee Support Office.

(b) There is established a Committee Support Office (Support Office) to assist the Committee by developing plans and projects that would further the creation of the Network. The Support Office shall, at the request of the Co-chairpersons of the Committee, carry out tasks taken on by the Committee.

(c) The National Oceanic and Atmospheric Administration shall provide funding and administrative support for the Committee and the Support Office. To the extent permitted by law, agencies may provide support to the Committee and the Support Office to assist them in their work.

SEC. 3. *Responsibilities.* (a) The Committee shall:

- (1) serve as the United States Government's single entity for all matters, both national and international, pertaining to the development and establishment of the Network;
- (2) provide leadership and high-level coordination of Network activities;
- (3) provide guidance for the development of Network strategies, goals, objectives, policies, and legislation;
- (4) represent and advocate Network goals, objectives, and processes to their respective agencies and departments;
- (5) provide manpower and material support for Network development activities;
- (6) develop, delegate, and monitor interagency opportunities and ideas supporting the development of

the Network; and

(7) provide reports, through the Co-chairpersons of the Committee, to the President as requested or at least annually.

(b) The Support Office shall:

(1) provide management and administrative support for the Committee;

(2) develop Network strategies, goals, objectives, policies, plans, and legislation in accordance with guidance provided by the Committee;

(3) consult with agencies, States, nongovernment organizations, and international counterparts in developing Network development tasks;

(4) develop and make recommendations concerning Network activities to the agencies as approved by the Committee; and

(5) participate in projects that promote the goals and objectives of the Network.

SEC. 4. *Implementation.* (a) The Committee, with the assistance of the Support Office, shall address national and international issues associated with the development of the Network within the context of:

(1) promoting the United States as an example and leader in the development and dissemination of disaster information, both domestically and abroad, and, to this end, seeking cooperation with foreign governments and international organizations;

(2) striving to include all appropriate stakeholders in the development of the Network; and

(3) facilitating the creation of a framework that involves public and private stakeholders in a partnership for sustained operations of the Network.

(b) Intelligence activities, as determined by the Director of the Central Intelligence Agency, as well as national security-related activities of the Department of Defense and of the Department of Energy, are exempt from compliance with this order.

SEC. 5. *Tribal Governments.* This order does not impose any requirements on tribal governments.

SEC. 6. *Judicial Review.* This order does not create any right or benefit, substantive or procedural, enforceable by law, by a party against the United States, its officers, its employees, or any other person.

SECTION 1. *Policy.* It is the policy of the United States to maintain comprehensive and effective continuity programs that ensure national security and the preservation of government structure under the United States Constitution and in alignment with Presidential Policy Directive-40 (PPD-40) of July 15, 2016 (National Continuity Policy). Executive departments and agencies (agencies), including the Executive Office of the President, must maintain the capability and capacity to continuously perform National Essential Functions (NEFs), as defined by PPD-40, regardless of threat or condition, and with the understanding that adequate warning may not be available. SEC. 2. *Federal Mission Resilience Strategy.* To achieve this policy, in conjunction with this order, I am signing the Federal Mission Resilience Strategy (Strategy), which should be implemented to increase the resilience of the executive branch. Implementing the Strategy will reduce the current reliance on reactive relocation of personnel and enhance a proactive posture that minimizes disruption, distributes risk to the performance of NEFs, and maximizes the cost-effectiveness of actions that ensure continuity of operations, continuity of government, and enduring constitutional government.

SEC. 3. *Executive Committee.* (a) The Federal Mission Resilience Executive Committee (Executive Committee) is hereby established.

(b) The Executive Committee shall be composed of the Secretary of Defense, the Secretary of Homeland

Security, the Director of National Intelligence, the Assistant to the President for National Security Affairs (APNSA), the Assistant to the President and Deputy Chief of Staff for Operations, and the Director of the Office of Management and Budget. When issues concerning science and technology, including communications technology, are on the agenda, the Executive Committee also shall include the Director of the Office of Science and Technology Policy (OSTP). The heads of other agencies, and other senior officials, shall be invited to attend meetings as appropriate.

(c) The APNSA, in coordination with the other members of the Executive Committee, shall be responsible for convening the committee, as appropriate, to coordinate the review, integration, and execution of the Strategy and other continuity policy across the executive branch.

(d) The Executive Committee shall:

(i) coordinate the development of an implementation plan (Plan) for the Strategy and other continuity policy, as described in section 4(b) of this order, and shall facilitate execution of the Plan and other continuity policy, as appropriate;

(ii) advise the President, through the Assistant to the President and Chief of Staff (Chief of Staff), on the review, integration, and execution of the Strategy and other continuity policy, including the recommendations outlined in section 4(c) of this order;

(iii) establish, with consensus of its members and as appropriate, subordinate coordinating bodies; and

(iv) coordinate the development of an interagency framework under which agencies will assess and address risk to Federal Mission Resilience and NEFs across the executive branch.

SEC. 4. *Implementation.* (a) Within 90 days of the date of this order [Dec. 7, 2020], the Executive Committee shall submit a Federal Mission Resilience Executive Committee Charter to the President, through the Chief of Staff, that identifies any subordinate bodies, working groups, and reporting mechanisms that support the role of the Executive Committee.

(b) Within 90 days of the date of this order, the Executive Committee shall submit a Federal Mission Resilience Implementation Plan to the President, through the Chief of Staff, that sets forth how the executive branch will implement the Strategy. The Plan shall describe in detail the near-, mid-, and long-term actions necessary to ensure the uninterrupted performance of NEFs.

(c) Within 120 days of the date of this order, the Executive Committee shall coordinate the review of existing continuity policy and other related national policies, and shall provide recommendations to the President, through the Chief of Staff, on any actions necessary to align these policies with the implementation of the Strategy.

SEC. 5. *Amendment to PPD-40.* To designate a new National Continuity Coordinator (NCC), in section 6 of PPD-40, the second sentence is hereby revised to read as follows: "To advise and assist the President in that function, the Assistant to the President for National Security Affairs, or his or her designee, is designated as the NCC."

SEC. 6. *Amendments to Executive Order 13618.* (a) [Amended Ex. Ord. 13618, set out above.]

(b) Section 3 of Executive Order 13618 is hereby revoked. The responsibilities of the national security and emergency preparedness Executive Committee set forth in section 3.3 of Executive Order 13618 shall be transferred to and exercised by the Executive Committee established in section 3 of this order.

SEC. 7. *Program Support.* The national security and emergency preparedness Executive Committee Joint Program Office established by section 4 of Executive Order 13618 shall support the Executive Committee established in section 3 of this order, the execution of activities described in section 4 of this order, and those activities taken by the Director of OSTP pursuant to section 6 of this order.

SEC. 8. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

§5195c. Critical infrastructures protection

(a) Short title

This section may be cited as the "Critical Infrastructures Protection Act of 2001".

(b) Findings

Congress makes the following findings:

(1) The information revolution has transformed the conduct of business and the operations of government as well as the infrastructure relied upon for the defense and national security of the United States.

(2) Private business, government, and the national security apparatus increasingly depend on an interdependent network of critical physical and information infrastructures, including telecommunications, energy, financial services, water, and transportation sectors.

(3) A continuous national effort is required to ensure the reliable provision of cyber and physical infrastructure services critical to maintaining the national defense, continuity of government, economic prosperity, and quality of life in the United States.

(4) This national effort requires extensive modeling and analytic capabilities for purposes of evaluating appropriate mechanisms to ensure the stability of these complex and interdependent systems, and to underpin policy recommendations, so as to achieve the continuous viability and adequate protection of the critical infrastructure of the Nation.

(c) Policy of the United States

It is the policy of the United States—

(1) that any physical or virtual disruption of the operation of the critical infrastructures of the United States be rare, brief, geographically limited in effect, manageable, and minimally detrimental to the economy, human and government services, and national security of the United States;

(2) that actions necessary to achieve the policy stated in paragraph (1) be carried out in a public-private partnership involving corporate and non-governmental organizations; and

(3) to have in place a comprehensive and effective program to ensure the continuity of essential Federal Government functions under all circumstances.

(d) Establishment of national competence for critical infrastructure protection

(1) Support of critical infrastructure protection and continuity by National Infrastructure Simulation and Analysis Center

There shall be established the National Infrastructure Simulation and Analysis Center (NISAC) to serve as a source of national competence to address critical infrastructure protection and continuity through support for activities related to counterterrorism, threat assessment, and risk mitigation.

(2) Particular support

The support provided under paragraph (1) shall include the following:

(A) Modeling, simulation, and analysis of the systems comprising critical infrastructures, including cyber infrastructure, telecommunications infrastructure, and physical infrastructure, in order to enhance understanding of the large-scale complexity of such systems and to facilitate modification of such systems to mitigate the threats to such systems and to critical infrastructures generally.

(B) Acquisition from State and local governments and the private sector of data necessary to create and maintain models of such systems and of critical infrastructures generally.

(C) Utilization of modeling, simulation, and analysis under subparagraph (A) to provide education and training to policymakers on matters relating to—

(i) the analysis conducted under that subparagraph;

(ii) the implications of unintended or unintentional disturbances to critical infrastructures; and

(iii) responses to incidents or crises involving critical infrastructures, including the continuity of government and private sector activities through and after such incidents or crises.

(D) Utilization of modeling, simulation, and analysis under subparagraph (A) to provide recommendations to policymakers, and to departments and agencies of the Federal Government and private sector persons and entities upon request, regarding means of enhancing the stability of, and preserving, critical infrastructures.

(3) Recipient of certain support

Modeling, simulation, and analysis provided under this subsection shall be provided, in particular, to relevant Federal, State, and local entities responsible for critical infrastructure protection and policy.

(e) Critical infrastructure defined

In this section, the term "critical infrastructure" means systems and assets, whether physical or virtual, so vital to the United States that the incapacity or destruction of such systems and assets would have a debilitating impact on security, national economic security, national public health or safety, or any combination of those matters.

(f) Authorization of appropriations

There is hereby authorized for the Department of Defense for fiscal year 2002, \$20,000,000 for the Defense Threat Reduction Agency for activities of the National Infrastructure Simulation and Analysis Center under this section in that fiscal year.

(Pub. L. 107–56, title X, §1016, Oct. 26, 2001, 115 Stat. 400.)

persons of lower income in central cities;

(2) inadequate public and private investment and reinvestment in housing and other physical facilities, and related public and social services, resulting in the growth and persistence of urban slums and blight and the marked deterioration of the quality of the urban environment; and

(3) increasing energy costs which have seriously undermined the quality and overall effectiveness of local community and housing development activities.

(b) Establishment and maintenance of viable urban communities; systematic and sustained action by Federal, State, and local governments; expansion of and continuity in Federal assistance; increased private investment; streamlining programs and improvement of functioning of agencies; action to address consequences of scarce fuel supplies

The Congress further finds and declares that the future welfare of the Nation and the well-being of its citizens depend on the establishment and maintenance of viable urban communities as social, economic, and political entities, and require—

(1) systematic and sustained action by Federal, State, and local governments to eliminate blight, to conserve and renew older urban areas, to improve the living environment of low- and moderate-income families, and to develop new centers of population growth and economic activity;

(2) substantial expansion of and greater continuity in the scope and level of Federal assistance, together with increased private investment in support of community development activities;

(3) continuing effort at all levels of government to streamline programs and improve the functioning of agencies responsible for planning, implementing, and evaluating community development efforts; and

(4) concerted action by Federal, State, and local governments to address the economic and social hardships borne by communities as a consequence of scarce fuel supplies.

(c) Decent housing, suitable living environment, and economic opportunities for persons of low and moderate income; community development activities which may be supported by Federal assistance

The primary objective of this chapter and of the community development program of each grantee under this chapter is the development of viable urban communities, by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. Consistent with this primary objective, not less than 70 percent of the aggregate of the Federal assistance provided to States and units of general local government under section 5306 of this title and, if applicable, the funds received as a result of a guarantee or a grant under section 5308 of this title, shall be used for the support of activities that benefit persons of low and moderate income, and the Federal assistance provided in this chapter is for the support of community development activities which are directed toward the following specific objectives—

(1) the elimination of slums and blight and the prevention of blighting influences and the deterioration of property and neighborhood and community facilities of importance to the welfare of the community, principally persons of low and moderate income;

(2) the elimination of conditions which are detrimental to health, safety, and public welfare, through code enforcement, demolition, interim rehabilitation assistance, and related activities;

(3) the conservation and expansion of the Nation's housing stock in order to provide a decent home and a suitable living environment for all persons, but principally those of low and moderate income;

(4) the expansion and improvement of the quantity and quality of community services, principally for persons of low and moderate income, which are essential for sound community development and for the development of viable urban communities;

(5) a more rational utilization of land and other natural resources and the better arrangement of residential, commercial, industrial, recreational, and other needed activity centers;

(6) the reduction of the isolation of income groups within communities and geographical areas and the promotion of an increase in the diversity and vitality of neighborhoods through the spatial deconcentration of housing opportunities for persons of lower income and the revitalization of

deteriorating or deteriorated neighborhoods;

(7) the restoration and preservation of properties of special value for historic, architectural, or esthetic reasons;

(8) the alleviation of physical and economic distress through the stimulation of private investment and community revitalization in areas with population outmigration or a stagnating or declining tax base; and

(9) the conservation of the Nation's scarce energy resources, improvement of energy efficiency, and the provision of alternative and renewable energy sources of supply.

It is the intent of Congress that the Federal assistance made available under this chapter not be utilized to reduce substantially the amount of local financial support for community development activities below the level of such support prior to the availability of such assistance.

(d) Consolidation of complex and overlapping Federal assistance programs into consistent system of Federal aid

It is also the purpose of this chapter to further the development of a national urban growth policy by consolidating a number of complex and overlapping programs of financial assistance to communities of varying sizes and needs into a consistent system of Federal aid which—

(1) provides assistance on an annual basis, with maximum certainty and minimum delay, upon which communities can rely in their planning;

(2) encourages community development activities which are consistent with comprehensive local and areawide development planning;

(3) furthers achievement of the national housing goal of a decent home and a suitable living environment for every American family; and

(4) fosters the undertaking of housing and community development activities in a coordinated and mutually supportive manner by Federal agencies and programs, as well as by communities.

FINDINGS AND PURPOSE

Pub. L. 100–242, §2, Feb. 5, 1988, 101 Stat. 1819, provided that:

"(a) FINDINGS.—The Congress finds that—

"(1) for the past 50 years, the Federal Government has taken the leading role in enabling the people of the Nation to be the best housed in the world, and recent reductions in Federal assistance have contributed to a deepening housing crisis for low- and moderate-income families;

"(2) the efforts of the Federal Government have included a system of specialized lending institutions, favorable tax policies, construction assistance, mortgage insurance, loan guarantees, secondary markets, and interest and rental subsidies, that have enabled people to rent or buy affordable, decent, safe, and sanitary housing; and

"(3) the tragedy of homelessness in urban and suburban communities across the Nation, involving a record number of people, dramatically demonstrates the lack of affordable residential shelter, and people living on the economic margins of our society (lower income families, the elderly, the working poor, and the deinstitutionalized) have few available alternatives for shelter.

"(b) PURPOSE.—The purpose of this Act [see Short Title of 1988 Amendment note above], therefore, is—

"(1) to reaffirm the principle that decent and affordable shelter is a basic necessity, and the general welfare of the Nation and the health and living standards of its people require the addition of new housing units to remedy a serious shortage of housing units for all Americans, particularly for persons of low and moderate income;

"(2) to make the distribution of direct and indirect housing assistance more equitable by providing Federal assistance for the less affluent people of the Nation;

"(3) to provide needed housing assistance for homeless people and for persons of low and moderate income who lack affordable, decent, safe, and sanitary housing; and

"(4) to reform existing programs to ensure that such assistance is delivered in the most efficient manner possible."

BUDGET COMPLIANCE

Pub. L. 100–242, §3, Feb. 5, 1988, 101 Stat. 1819, provided that:

"(a) IN GENERAL.—This Act and the amendments made by this Act [see Short Title of 1988 Amendment note above] may not be construed to provide for new budget authority, budget outlays, or new entitlement authority, for fiscal year 1988 in excess of the appropriate aggregate levels established by the concurrent resolution on the budget for such fiscal year for the programs authorized by this Act and the amendments made by this Act.

"(b) DEFINITIONS.—For purposes of this section, the terms 'budget authority', 'budget outlays', 'concurrent resolution on the budget', and 'entitlement authority' have the meanings given such terms in section 3 of the Congressional Budget Act of 1974 (2 U.S.C. 622)."

CREDIT LIMITATION

Pub. L. 100–242, §4, Feb. 5, 1988, 101 Stat. 1819, provided that: "Any new credit authority (as defined in section 3 of the Congressional Budget Act of 1974 [2 U.S.C. 622]) which is provided by this Act [see Short Title of 1988 Amendment note above], or by an amendment made by this Act, shall be effective only to such extent or in such amounts as are provided in appropriation Acts."

LIMITATION ON SPENDING AUTHORITY

Pub. L. 100–242, §5, Feb. 5, 1988, 101 Stat. 1820, provided that: "Any new spending authority (as defined in section 401(c) of the Congressional Budget Act of 1974 [2 U.S.C. 651(c)]) which is provided by this Act, or by an amendment made by this Act [see Short Title of 1988 Amendment note above], shall be effective only to such extent or in such amounts as are provided in appropriation Acts."

LIMITATION ON WITHHOLDING OR CONDITIONING OF ASSISTANCE

Pub. L. 93–383, title VIII, §817, Aug. 22, 1974, 88 Stat. 739, as amended by Pub. EXECUTIVE DOCUMENTS

EX. ORD. NO. 13853. ESTABLISHING THE WHITE HOUSE OPPORTUNITY AND REVITALIZATION COUNCIL

Ex. Ord. No. 13853, Dec. 12, 2018, 83 F.R. 65071, provided:

SECTION 1. *Purpose.* Fifty-two million Americans live in economically distressed communities. Despite the growing national economy, these communities are plagued by high poverty levels, failing schools, and a scarcity of jobs. In December 2017, I signed into law a bill originally introduced as the Tax Cuts and Jobs Act (Act) [title I of Pub. L. 115–97, see Tables for classification], which established a historic new Federal tax incentive that promotes long-term equity investments in low-income communities designated as "qualified opportunity zones" by the Governors of States or territories. In order to further facilitate such investment, my Administration will implement reforms that streamline existing regulations, protect taxpayers by optimizing use of Federal resources, stimulate economic opportunity and mobility, encourage entrepreneurship, expand quality educational opportunities, develop and rehabilitate quality housing stock, promote workforce development, and promote safety and prevent crime in urban and economically distressed communities.

This order establishes a White House Council to carry out my Administration's plan to encourage public and private investment in urban and economically distressed areas, including qualified opportunity zones. The Council shall lead joint efforts across executive departments and agencies (agencies) to engage with State, local, and tribal governments to find ways to better use public funds to revitalize urban and economically distressed communities.

(xi) the Administrator of the Environmental Protection Agency;
(xii) the Director of the Office of Management and Budget;
(xiii) the Administrator of the Small Business Administration;
(xiv) the Assistant to the President for Economic Policy;
(xv) the Chairman of the Council of Economic Advisers;
(xvi) the Chairman of the Council on Environmental Quality; and
(xvii) the heads of such other agencies, offices, or independent regulatory agencies as the Chair may, from time to time, designate or invite.

(b) ADMINISTRATION. The Vice Chair shall convene regular meetings of the Council, determine its agenda, and direct its work, all under the guidance of the Chair. The Department of Housing and Urban Development shall provide funding and administrative support for the Council to the extent permitted by law and within existing appropriations. The Secretary of HUD shall designate a HUD officer or employee to serve as the Executive Director of the Council, who shall be responsible for coordinating the Council's work.

SEC. 3. *Mission and Function of the Council.* The Council shall, to the extent permitted by law, work across agencies, giving consideration to existing agency initiatives, to:

(a) assess the actions each agency can take under existing authorities to prioritize or focus Federal investments and programs on urban and economically distressed communities, including qualified opportunity zones;

(b) assess the actions each agency can take under existing authorities to minimize all regulatory and administrative costs and burdens that discourage public and private investment in urban and economically distressed communities, including qualified opportunity zones;

(c) regularly consult with officials from State, local, and tribal governments and individuals from the private sector to solicit feedback on how best to stimulate the economic development of urban and economically distressed areas, including qualified opportunity zones;

(d) coordinate Federal interagency efforts to help ensure that private and public stakeholders—such as investors; business owners; institutions of higher education (including Historically Black Colleges and Universities, as defined by 50 U.S.C. 3224(g)(2), and tribally controlled colleges and universities, as defined by 25 U.S.C. 1801(a)(4)); K–12 education providers; early care and education providers; human services agencies; State, local, and tribal leaders; public housing agencies; non-profit organizations; and economic development organizations—can successfully develop strategies for economic growth and revitalization;

(e) recommend policies that would:

(i) reduce and streamline regulatory and administrative burdens, including burdens on applicants applying for multiple Federal assistance awards;

(ii) help community-based applicants, including recipients of investments from qualified opportunity funds, identify and apply for relevant Federal resources; and

(iii) make it easier for recipients to receive and manage multiple types of public and private investments, including by aligning certain program requirements;

(f) evaluate the following:

(i) whether and how agencies can prioritize support for urban and economically distressed areas, including qualified opportunity zones, in their grants, financing, and other assistance;

(ii) appropriate methods for Federal cooperation with and support for States, localities, and tribes that are innovatively and strategically facilitating economic growth and inclusion in urban and economically distressed communities, including qualified opportunity zones, consistent with preserving State, local, and tribal control;

(iii) whether and how to develop an integrated web-based tool through which entrepreneurs, investors, and other stakeholders can see the full range of applicable Federal financing programs and incentives available to projects located in urban and economically distressed areas, including qualified opportunity zones;

(iv) whether and how to consider urban and economically distressed areas, including qualified opportunity zones, as possible locations for Federal buildings, through consultation with the General Services Administration;

(v) whether and how Federal technical assistance, planning, financing tools, and implementation strategies can be coordinated across agencies to assist communities in addressing economic problems, engaging in comprehensive planning, and advancing regional collaboration; and

(vi) what data, metrics, and methodologies can be used to measure the effectiveness of public and private investments in urban and economically distressed communities, including qualified opportunity

zones.

SEC. 4. *Reports.* The Assistant to the President for Domestic Policy shall, on behalf of the Council, be responsible for submitting to the President:

(a) Within 90 days of the date of this order [Dec. 12, 2018], a detailed work plan for how, and by when, the Council will accomplish the goals detailed in section 3 of this order;

(c) Within 1 year of the date of this order, a list of recommended changes to Federal statutes, regulations, policies, and programs that would help State, local, and tribal governments to better identify, use, and administer Federal resources in urban and economically distressed communities, including qualified opportunity zones;

(d) Within 1 year of the date of this order, a list of best practices that could be integrated into public and private investments in urban and economically distressed communities, including qualified opportunity zones, in order to increase economic growth, encourage new business formation, and revitalize communities; and

(e) Any subsequent reports that the President may request or that the Council may deem appropriate.

SEC. 5. *Amendments to Executive Order 13845.* [Amended Ex. Ord. No. 13845, formerly set out as a note under section 3101 of Title 29, Labor.]

SEC. 6. *General Provisions.* (a) The heads of agencies shall assist and provide information to the Council, consistent with applicable law, as may be necessary for the Council to carry out its functions.

(b) The heads of agencies shall consider the reports and recommendations of the Council in carrying out their responsibilities related to urban and economically distressed communities.

(c) The Council shall terminate on January 21, 2021, unless extended by the President.

(d) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

DONALD J. TRUMP.

Any unit of general local government that becomes eligible to be classified as a metropolitan city, and was not classified as a metropolitan city in the immediately preceding fiscal year, may, upon submission of written notification to the Secretary, defer its classification as a metropolitan city for all purposes under this chapter, if it elects to have its population included in an urban county under subsection (d). Notwithstanding the second sentence of this paragraph, a city may elect not to retain its classification as a metropolitan city. Any city classified as a metropolitan city pursuant to this paragraph, and that no longer qualifies as a metropolitan city in a fiscal year beginning after fiscal year 1989, shall retain its classification as a metropolitan city for such fiscal year and the succeeding fiscal year, except that in such succeeding fiscal year (A) the amount of the grant to such city shall be 50 percent of the amount calculated under section 5306(b) of this title; and (B) the remaining 50 percent shall be added to the amount allocated under section 5306(d) of this title to the State in which the city is located and the city shall be eligible in such succeeding fiscal year to receive a distribution from the State allocation under section 5306(d) of this title as increased by this sentence. Any metropolitan city that elects to relinquish its classification under the preceding sentence and whose port authority shipped at least 35,000,000 tons of cargo in 1988, of which iron ore made up at least half, shall not receive, in any fiscal year, a total amount of assistance under section 5306 of this title from the urban county recipient that is less than the city would have received if it had not relinquished the classification under the preceding sentence. (5) The term "city" means (A) any unit of general local government which is classified as a municipality by the United States Bureau of the Census or (B) any other unit of general local government which is a town or township and which, in the determination of the Secretary, (i) possesses powers and performs functions comparable to these associated with municipalities, (ii) is closely settled, and (iii) contains within its boundaries no incorporated places as defined by the United States Bureau of the Census which have not entered into cooperation agreements with such town or township to undertake or to assist in the undertaking of essential community development and housing assistance activities.

(II) has a population in excess of 100,000, a population density of at least 5,000 persons

per square mile, and contains within its boundaries no incorporated places as defined by the United States Bureau of the Census.

(B) Any county that was classified as an urban county for at least 2 years pursuant to subparagraph (A), (C), or (D) shall remain classified as an urban county, unless it fails to qualify as an urban county pursuant to subparagraph (A) by reason of the election of any unit of general local government included in such county to have its population excluded under clause (ii)(I)(a) of subparagraph (A) or not to renew a cooperation agreement under clause (ii)(I)(b) of such subparagraph.

This paragraph may not be construed to restrict the responsibility or authority of the grantee for the development and execution of its community development program.

(b) Certification of enumerated criteria by grantee to Secretary

Any grant under section 5306 of this title shall be made only if the grantee certifies to the satisfaction of the Secretary that—

(1) the grantee is in full compliance with the requirements of subsection (a)(2)(A), (B), and (C) and has made the final statement available to the public;

(4) it has developed a community development plan pursuant to subsection (m), for the period specified by the grantee under paragraph (3), that identifies community development needs and specifies both short- and long-term community development objectives that have been developed in accordance with the primary objective and requirements of this chapter;

(5) the grantee will not attempt to recover any capital costs of public improvements assisted in whole or part under section 5306 of this title or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (A) funds received under section 5306 of this title are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (B) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary that it lacks sufficient funds received under section 5306 of this title to comply with the requirements of subparagraph (A); and

(d) Residential antidisplacement and relocation assistance plan; certification of adherence; contents

(1) A grant under section 5306 or 5318 of this title may be made only if the grantee certifies that it is following a residential antidisplacement and relocation assistance plan. A grantee receiving a grant under section 5306(a) of this title or section 5318 of this title shall so certify to the Secretary. A unit of general local government receiving amounts from a State under section 5306(d) of this title shall so certify to the State, and a unit of general local government receiving amounts from the Secretary under section 5306(d) of this title shall so certify to the Secretary.

(ii) such comparable replacement dwellings shall be designed to remain affordable to persons of low and moderate income for 10 years from the time of initial occupancy;

(I) decent, safe, and sanitary;

(II) adequate in size to accommodate the occupants;

(IV) in an area not subject to unreasonably adverse environmental conditions;

(B) provide that persons displaced shall have the right to elect, as an alternative to the benefits under this subsection, to receive benefits under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) if such persons determine that it is in their best interest to do so; and

(C) provide that where a claim for assistance under subparagraph (A)(iv) is denied by a grantee, the claimant may appeal to the Secretary in the case of a grant under section 5306 or 5318 of this title or to the appropriate State official in the case of a grant under section 5306(d) of this title, and that the decision of the Secretary or the State official shall be final unless a court determines the decision was arbitrary and capricious.

(3) Paragraphs (2)(A)(i) and (2)(A)(ii) shall not apply in any case in which the Secretary finds, on the basis of objective data, that there is available in the area an adequate supply of habitable affordable housing for low and moderate income persons. A determination under this paragraph is

final and nonreviewable.

(e) Submission of performance and evaluation report by grantee to Secretary; contents; availability for citizen comment; annual review and audit by Secretary of program implementation; adjustments in amount of annual grants

Each grantee shall submit to the Secretary, at a time determined by the Secretary, a performance and evaluation report concerning the use of funds made available under section 5306 of this title, together with an assessment by the grantee of the relationship of such use to the objectives identified in the grantee's statement under subsection (a) and to the requirements of subsection (b)(3). Such report shall also be made available to the citizens in each grantee's jurisdiction in sufficient time to permit such citizens to comment on such report prior to its submission, and in such manner and at such times as the grantee may determine. The grantee's report shall indicate its programmatic accomplishments, the nature of and reasons for changes in the grantee's program objectives, indications of how the grantee would change its programs as a result of its experiences, and an evaluation of the extent to which its funds were used for activities that benefited low- and moderate-income persons. The report shall include a summary of any comments received by the grantee from citizens in its jurisdiction respecting its program. The Secretary shall encourage and assist national associations of grantees eligible under section 5306(d)(2)(B) of this title, national associations of States, and national associations of units of general local government in nonentitlement areas to develop and recommend to the Secretary, within one year after November 30, 1983, uniform recordkeeping, performance reporting, and evaluation reporting, and auditing requirements for such grantees, States, and units of general local government, respectively. Based on the Secretary's approval of these recommendations, the Secretary shall establish such requirements for use by such grantees, States, and units of general local government. The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine—

(1) in the case of grants made under subsection (a)(3), (b), or (d)(2)(B) of section 5306 of this title, whether the grantee has carried out its activities and, where applicable, its housing assistance plan in a timely manner, whether the grantee has carried out those activities and its certifications in accordance with the requirements and the primary objectives of this chapter and with other applicable laws, and whether the grantee has a continuing capacity to carry out those activities in a timely manner; and

(2) in the case of grants to States made under section 5306(d) of this title, whether the State has distributed funds to units of general local government in a timely manner and in conformance to the method of distribution described in its statement, whether the State has carried out its certifications in compliance with the requirements of this chapter and other applicable laws, and whether the State has made such reviews and audits of the units of general local government as may be necessary or appropriate to determine whether they have satisfied the applicable performance criteria described in paragraph (1) of this subsection.

The Secretary may make appropriate adjustments in the amount of the annual grants in accordance with the Secretary's findings under this subsection. With respect to assistance made available to units of general local government under section 5306(d) of this title, the Secretary may adjust, reduce, or withdraw such assistance, or take other action as appropriate in accordance with the Secretary's reviews and audits under this subsection, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future assistance to such units of general local government.

(f) Audit of grantees by Government Accountability Office; access to books, accounts, records, etc., by representatives of Government Accountability Office

Insofar as they relate to funds provided under this chapter, the financial transactions of recipients of such funds may be audited by the Government Accountability Office under such rules and regulations as may be prescribed by the Comptroller General of the United States. The

representatives of the Government Accountability Office shall have access to all books, accounts, records, reports, files, and other papers, things, or property belonging to or in use by such recipients pertaining to such financial transactions and necessary to facilitate the audit.

(g) Environmental protection measures applicable for release of funds to applicants for projects; issuance of regulations by Secretary subsequent to consultation with Council on Environmental Quality; request and certification to Secretary for approval of release of funds; form, contents and effect of certification

(1) In order to assure that the policies of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and other provisions of law which further the purposes of such Act (as specified in regulations issued by the Secretary) are most effectively implemented in connection with the expenditure of funds under this chapter, and to assure to the public undiminished protection of the environment, the Secretary, in lieu of the environmental protection procedures otherwise applicable, may under regulations provide for the release of funds for particular projects to recipients of assistance under this chapter who assume all of the responsibilities for environmental review, decisionmaking, and action pursuant to such Act, and such other provisions of law as the regulations of the Secretary specify, that would apply to the Secretary were he to undertake such projects as Federal projects. The Secretary shall issue regulations to carry out this subsection only after consultation with the Council on Environmental Quality.

(2) The Secretary shall approve the release of funds for projects subject to the procedures authorized by this subsection only if, at least fifteen days prior to such approval and prior to any commitment of funds to such projects other than for purposes authorized by section 5305(a)(12) of this title or for environmental studies, the recipient of assistance under this chapter has submitted to the Secretary a request for such release accompanied by a certification which meets the requirements of paragraph (3). The Secretary's approval of any such certification shall be deemed to satisfy his responsibilities under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and such other provisions of law as the regulations of the Secretary specify insofar as those responsibilities relate to the releases of funds for projects to be carried out pursuant thereto which are covered by such certification.

(3) A certification under the procedures authorized by this subsection shall—

(A) be in a form acceptable to the Secretary,

(B) be executed by the chief executive officer or other officer of the recipient of assistance under this chapter qualified under regulations of the Secretary,

(C) specify that the recipient of assistance under this chapter has fully carried out its responsibilities as described under paragraph (1) of this subsection, and

(D) specify that the certifying officer (i) consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and each provision of law specified in regulations issued by the Secretary insofar as the provisions of such Act or other such provision of law apply pursuant to paragraph (1) of this subsection, and (ii) is authorized and consents on behalf of the recipient of assistance under this chapter and himself to accept the jurisdiction of the Federal courts for the purpose of enforcement of his responsibilities as such an official.

(4) In the case of grants made to States pursuant to section 5306(d) of this title, the State shall perform those actions of the Secretary described in paragraph (2) and the performance of such actions shall be deemed to satisfy the Secretary's responsibilities referred to in the second sentence of such paragraph.

(h) Payments; revolving loan fund: establishment in private financial institution for rehabilitation activities; standards for payments: criteria

(1) Units of general local government receiving assistance under this chapter may receive funds, in one payment, in an amount not to exceed the total amount designated in the grant (or, in the case of a unit of general local government receiving a distribution from a State pursuant to section 5306(d) of this title, not to exceed the total amount of such distribution) for use in establishing a revolving loan

fund which is to be established in a private financial institution and which is to be used to finance rehabilitation activities assisted under this chapter. Rehabilitation activities authorized under this section shall begin within 45 days after receipt of such payment and substantial disbursements from such fund must begin within 180 days after receipt of such payment.

(2) The Secretary shall establish standards for such cash payments which will insure that the deposits result in appropriate benefits in support of the recipient's rehabilitation program. These standards shall be designed to assure that the benefits to be derived from the local program include, at a minimum, one or more of the following elements, or such other criteria as determined by the Secretary—

(A) leverage of community development block grant funds so that participating financial institutions commit private funds for loans in the rehabilitation program in amounts substantially in excess of deposit of community development funds;

(B) commitment of private funds for rehabilitation loans at below-market interest rates or with repayment periods lengthened or at higher risk than would normally be taken;

(C) provision of administrative services in support of the rehabilitation program by the participating lending institutions; and

(D) interest earned on such cash deposits shall be used in a manner which supports the community rehabilitation program.

(i) Metropolitan city as part of urban county

In any case in which a metropolitan city is located, in whole or in part, within an urban county, the Secretary may, upon the joint request of such city and county, approve the inclusion of the metropolitan city as part of the urban county for purposes of submitting a statement under subsection (a) and carrying out activities under this chapter.

(j) Retention of program income; condition of distribution

Notwithstanding any other provision of law, any unit of general local government may retain any program income that is realized from any grant made by the Secretary, or any amount distributed by a State, under section 5306 of this title if (1) such income was realized after the initial disbursement of the funds received by such unit of general local government under such section; and (2) such unit of general local government has agreed that it will utilize the program income for eligible community development activities in accordance with the provisions of this chapter; except that the Secretary may, by regulation, exclude from consideration as program income any amounts determined to be so small that compliance with this subsection creates an unreasonable administrative burden on the unit of general local government. A State may require as a condition of any amount distributed by such State under section 5306(d) of this title that a unit of general local government shall pay to such State any such income to be used by such State to fund additional eligible community development activities, except that such State shall waive such condition to the extent such income is applied to continue the activity from which such income was derived.

(k) Provision of benefits to displaced persons

Each grantee shall provide for reasonable benefits to any person involuntarily and permanently displaced as a result of the use of assistance received under this chapter to acquire or substantially rehabilitate property.

(l) Protection of individuals engaging in nonviolent civil rights demonstrations

No funds authorized to be appropriated under section 5303 of this title may be obligated or expended to any unit of general local government that—

(1) fails to adopt and enforce a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations; or

(2) fails to adopt and enforce a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such nonviolent civil rights demonstration within its jurisdiction.

(m) Community development plans

(1) In general

Prior to the receipt in any fiscal year of a grant from the Secretary under subsection (a)(2),(b), (d)(1), or (d)(2)(B) of section 5306 of this title, each recipient shall have prepared and submitted in accordance with this subsection and in such standardized form as the Secretary shall, by regulation, prescribe a description of its priority nonhousing community development needs eligible for assistance under this chapter.

(2) Local governments

In the case of a recipient that is a unit of general local government other than an insular area—

(A) prior to the submission required by paragraph (1), the recipient shall, to the extent practicable, notify adjacent units of general local government and solicit the views of citizens on priority nonhousing community development needs; and

(B) the description required under paragraph (1) shall be submitted to the Secretary, the State, and any other unit of general local government within which the recipient is located, in such standardized form as the Secretary shall, by regulation, prescribe.

(3) States

In the case of a recipient that is a State, the description required by paragraph (1)—

(A) shall include only the needs within the State that affect more than one unit of general local government and involve activities typically funded by such States under this chapter; and

(B) shall be submitted to the Secretary in such standard form as the Secretary, by regulation, shall prescribe.

(4) Effect of submission

A submission under this subsection shall not be binding with respect to the use or distribution of amounts received under section 5306 of this title.

For purposes of calculating the entitlement share for the balance of the consolidated government under this paragraph, the entire balance shall be considered to have been an urban county.

(c) Reallocation of undistributed funds within same metropolitan area as original allocation; amount and calculation of reallocation grant; disaster relief

(1) Except as provided in paragraphs (2) and (4), any amounts allocated to a metropolitan city or an urban county pursuant to the preceding provisions of this section which are not received by the city or county for a fiscal year because of failure to meet the requirements of subsection (a), (b), (c), or (d) of section 5304 of this title, or which become available as a result of actions under section 5304(e) or 5311 of this title, shall be reallocated in the succeeding fiscal year to the other metropolitan cities and urban counties in the same metropolitan area which certify to the satisfaction of the Secretary that they would be adversely affected by the loss of such amounts from the metropolitan area. The amount of the share of funds reallocated under this paragraph for any metropolitan city or urban county shall bear the same ratio to the total of such reallocated funds in the metropolitan area as the amount of funds awarded to the city or county for the fiscal year in which the reallocated funds become available bears to the total amount of funds awarded to all metropolitan cities and urban counties in the same metropolitan area for that fiscal year, except that—

(A) in determining the amounts awarded to cities or counties for purposes of calculating shares pursuant to this sentence, there shall be excluded from the award of any city or county any amounts which become available as a result of actions against such city or county under section 5311 of this title;

(B) in reallocating amounts resulting from an action under section 5304(e) of this title or section 5311 of this title, a city or county against whom any such action was taken in a fiscal year shall be excluded from a calculation of share for purposes of reallocating, in the succeeding year, the amounts becoming available as a result of such action; and

(C) in no event may the share of reallocated funds for any metropolitan city or urban county exceed 25 per centum of the amount awarded to the city or county under subsection (b) for the fiscal year in which the reallocated funds under this paragraph become available.

Any amounts allocated under subsection (b) which become available for reallocation and for which no metropolitan city or urban county qualifies under this paragraph shall be added to amounts available for allocation under such subsection (b) in the succeeding fiscal year.

(2) Notwithstanding any other provision of this chapter, the Secretary shall make grants from amounts authorized for use under subsection (b) by the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, in accordance with the provisions of this chapter which governed grants with respect to such amounts, as such provisions existed prior to October 1, 1981, except that any such amounts which are not obligated before January 1, 1982, shall be reallocated in accordance with paragraph (1).

(3) Notwithstanding the provisions of paragraph (1), the Secretary may upon request transfer responsibility to any metropolitan city for the administration of any amounts received, but not obligated, by the urban county in which such city is located if (A) such city was an included unit of general local government in such county prior to the qualification of such city as a metropolitan city; (B) such amounts were designated and received by such county for use in such city prior to the qualification of such city as a metropolitan city; and (C) such city and county agree to such transfer of responsibility for the administration of such amounts.

(4)(A) Notwithstanding paragraph (1), in the event of a major disaster declared by the President under the Robert T. Stafford Disaster Relief and Emergency Assistance Act [42 U.S.C. 5121 et seq.], the Secretary shall make available, to metropolitan cities and urban counties located or partially located in the areas affected by the disaster, any amounts that become available as a result of actions under section 5304(e) or 5311 of this title.

(B) In using any amounts that become available as a result of actions under section 5304(e) or 5311 of this title, the Secretary shall give priority to providing emergency assistance under this paragraph.

(C) The Secretary may provide assistance to any metropolitan city or urban county under this paragraph only to the extent necessary to meet emergency community development needs, as the Secretary shall determine (subject to subparagraph (D)), of the city or county resulting from the disaster that are not met with amounts otherwise provided under this chapter, the Robert T. Stafford Disaster Relief and Emergency Assistance Act [42 U.S.C. 5121 et seq.], and other sources of assistance.

(D) Amounts provided to metropolitan cities and urban counties under this paragraph may be used only for eligible activities under section 5305 of this title, and in implementing this section, the Secretary shall evaluate the natural hazards to which any permanent replacement housing is exposed and shall take appropriate action to mitigate such hazards.

(E) The Secretary shall provide for applications (or amended applications and statements under section 5304 of this title) for assistance under this paragraph.

(F) A metropolitan city or urban county eligible for assistance under this paragraph may receive such assistance only in each of the fiscal years ending during the 3-year period beginning on the date of the declaration of the disaster by the President.

(G) This paragraph may not be construed to require the Secretary to reserve any amounts that become available as a result of actions under section 5304(e) or 5311 of this title for assistance under this paragraph if, when such amounts are to be reallocated under paragraph (1), no metropolitan city or urban county qualifies for assistance under this paragraph.

(d) Allocation among States for nonentitlement areas; amount and calculation of grants; distributions by State or Secretary; certain distributions made pursuant to prior provisions; certifications required by Governor enumerated; responsibility for administration and administrative expenses; reallocation; certifications required of units of general local government in nonentitlement areas; applicability of this chapter and other law

(1) Of the amount approved in an appropriation Act under section 5303 of this title that remains after allocations pursuant to paragraphs (1), (2), and (3) of subsection (a), 30 per centum shall be allocated among the States for use in nonentitlement areas. The allocation for each State shall be the greater of an amount that bears the same ratio to the allocation for such areas of all States available under this subparagraph as either—

(A) the average of the ratios between—

(i) the population of the nonentitlement areas in that State and the population of the nonentitlement areas of all States;

- (ii) the extent of poverty in the nonentitlement areas in that State and the extent of poverty in the nonentitlement areas of all States; and
- (iii) the extent of housing overcrowding in the nonentitlement areas in that State and the extent of housing overcrowding in the nonentitlement areas of all States; or

(B) the average of the ratios between—

- (i) the age of housing in the nonentitlement areas in that State and the age of housing in the nonentitlement areas of all States;
- (ii) the extent of poverty in the nonentitlement areas in that States and the extent of poverty in the nonentitlement areas of all States; and
- (iii) the population of the nonentitlement areas in that State and the population of the nonentitlement areas of all States.

In determining the average of the ratios under subparagraph (A) the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under this paragraph and the total of the amounts available under such paragraph, make a pro rata reduction of each amount allocated to the nonentitlement areas in each State under such paragraph so that the nonentitlement areas in each State will receive an amount which represents the same percentage of the total amount available under such paragraph as the percentage which the nonentitlement areas of the same State would have received under such paragraph if the total amount available under such paragraph had equaled the total amount which was allocated under such paragraph.

(2)(A) Amounts allocated under paragraph (1) shall be distributed to units of general local government located in nonentitlement areas of the State to carry out activities in accordance with the provisions of this chapter—

- (i) by a State that has elected, in such manner and at such time as the Secretary shall prescribe, to distribute such amounts, consistent with the statement submitted under section 5304(a) of this title; or
- (ii) by the Secretary, in any case described in subparagraph (B), for use by units of general local government in accordance with paragraph (3)(B).

Any election to distribute funds made after the close of fiscal year 1984 is permanent and final. Notwithstanding any provision of this chapter, the Secretary shall make grants from amounts authorized for use in nonentitlement areas by the Department of Housing and Urban Development—Independent Agencies Appropriation Act, 1981, in accordance with the provisions of this chapter which governed grants with respect to such amounts, as such provisions existed prior to October 1, 1981. Any amounts under the preceding sentence (except amounts for which preapplications have been approved by the Secretary prior to October 1, 1981, and which have been obligated by January 1, 1982) which are or become available for obligation after fiscal year 1981 shall be available for distribution in the State in which the grants from such amounts were made, by the State or by the Secretary, whichever is distributing the State allocation in the fiscal year in which such amounts are or become available.

(B) The Secretary shall distribute amounts allocated under paragraph (1) if the State has not elected to distribute such amounts.

(C) To receive and distribute amounts allocated under paragraph (1), the State must certify that it, with respect to units of general local government in nonentitlement areas—

- (i) engages or will engage in planning for community development activities;
- (ii) provides or will provide technical assistance to units of general local government in connection with community development programs;
- (iii) will not refuse to distribute such amounts to any unit of general local government on the

basis of the particular eligible activity selected by such unit of general local government to meet its community development needs, except that this clause may not be considered to prevent a State from establishing priorities in distributing such amounts on the basis of the activities selected; and

(iv) has consulted with local elected officials from among units of general local government located in nonentitlement areas of that State in determining the method of distribution of funds required by subparagraph (A).

(D) To receive and distribute amounts allocated under paragraph (1), the State shall certify that each unit of general local government to be distributed funds will be required to identify its community development and housing needs, including the needs of low and moderate income persons, and the activities to be undertaken to meet such needs.

(3)(A) If the State receives and distributes such amounts, it shall be responsible for the administration of funds so distributed. The State shall pay from its own resources all administrative expenses incurred by the State in carrying out its responsibilities under this chapter or section 1437o(e)(1) ¹ of this title, except that from the amounts received for distribution in nonentitlement areas, the State may deduct an amount to cover such expenses and its administrative expenses under section 1706e ¹ of title 12 not to exceed the sum of \$100,000 plus 50 percent of any such expenses under this chapter in excess of \$100,000. Amounts deducted in excess of \$100,000 shall not, subject to paragraph (6), exceed 3 percent of the amount so received.

(B) If the Secretary distributes such amounts, the distribution shall be made in accordance with determinations of the Secretary pursuant to statements submitted and the other requirements of section 5304 of this title (other than subsection (c)) and in accordance with regulations and procedures prescribed by the Secretary.

(C) Any amounts allocated for use in a State under paragraph (1) that are not received by the State for any fiscal year because of failure to meet the requirements of subsection (a), (b), or (d) of section 5304 of this title or to make the certifications required in subparagraphs (C) and (D) of paragraph (2), or that become available as a result of actions against the State under section 5304(e) or 5311 of this title, shall be added to amounts allocated to all States under paragraph (1) for the succeeding fiscal year.

(D) Any amounts allocated for use in a State under paragraph (1) that become available as a result of actions under section 5304(e) or 5311 of this title against units of general local government in nonentitlement areas of the State or as a result of the closeout of a grant made by the Secretary under this section in nonentitlement areas of the State shall be added to amounts allocated to the State under paragraph (1) for the fiscal year in which the amounts become so available.

(4) Any combination of units of general local governments may not be required to obtain recognition by the Secretary pursuant to section 5302(a)(1) of this title to be treated as a single unit of general local government for purposes of this subsection.

(5) From the amounts received under paragraph (1) for distribution in nonentitlement areas, the State may deduct an amount, subject to paragraph (6), not to exceed 3 percent of the amount so received, to provide technical assistance to local governments and nonprofit program recipients.

(6) Of the amounts received under paragraph (1), the State may deduct not more than an aggregate total of 3 percent of such amounts for—

(A) administrative expenses under paragraph (3)(A); and

(B) technical assistance under paragraph (5).

(7) No amount may be distributed by any State or the Secretary under this subsection to any unit of general local government located in a nonentitlement area unless such unit of general local government certifies that—

(A) it will minimize displacement of persons as a result of activities assisted with such amounts;

(B) its program will be conducted and administered in conformity with the Civil Rights Act of 1964 [42 U.S.C. 2000a et seq.] and the Fair Housing Act [42 U.S.C. 3601 et seq.], and that it will affirmatively further fair housing;

(C) it will provide for opportunities for citizen participation, hearings, and access to information

with respect to its community development program that are comparable to those required of grantees under section 5304(a)(2) of this title; and

(D) it will not attempt to recover any capital costs of public improvements assisted in whole or part under this section or with amounts resulting from a guarantee under section 5308 of this title by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements, unless (i) funds received under this section are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from revenue sources other than under this chapter; or (ii) for purposes of assessing any amount against properties owned and occupied by persons of moderate income, the grantee certifies to the Secretary or such State, as the case may be, that it lacks sufficient funds received under this section to comply with the requirements of clause (i).

(8) Any activities conducted with amounts received by a unit of general local government under this subsection shall be subject to the applicable provisions of this chapter and other Federal law in the same manner and to the same extent as activities conducted with amounts received by a unit of general local government under subsection (a).

(e) Qualification or submission dates, and finality and conclusiveness of computations and determinations

The Secretary may fix such qualification or submission dates as he determines are necessary to permit the computations and determinations required by this section to be made in a timely manner, and all such computations and determinations shall be final and conclusive.

(f) Pro rata adjustment of entitlement amounts

If the total amount available for distribution in any fiscal year to metropolitan cities and urban counties under this section is insufficient to provide the amounts to which metropolitan cities and urban counties would be entitled under subsection (b), and funds are not otherwise appropriated to meet the deficiency, the Secretary shall meet the deficiency through a pro rata reduction of all amounts determined under subsection (b). If the total amount available for distribution in any fiscal year to metropolitan cities and urban counties under this section exceeds the amounts to which metropolitan cities and urban counties would be entitled under subsection (b), the Secretary shall distribute the excess through a pro rata increase of all amounts determined under subsection (b).

Notwithstanding any other provision of law and subject only to the absence of qualified applicants or proposed activities and to the authority provided in this section, to the extent approved or provided in appropriation Acts, the Secretary shall enter into commitments to guarantee notes and obligations under this section with an aggregate principal amount of \$2,000,000,000 for fiscal year 1993 and \$2,000,000,000 for fiscal year 1994. The Secretary may waive the percentage requirements of the preceding sentence in any fiscal year only to the extent that there is an absence of qualified applicants or proposed activities from metropolitan cities, urban counties, and Indian tribes or units of general local government in nonentitlement areas.

(b) Prerequisites

No guarantee or commitment to guarantee shall be made with respect to any note or other obligation if the issuer's total outstanding notes or obligations guaranteed under this section (excluding any amount defeased under the contract entered into under subsection (d)(1)(A)) would thereby exceed an amount equal to 5 times the amount of the grant approval for the issuer pursuant to section 5306 or 5307 of this title.

(c) Payment of principal, interest and costs

Notwithstanding any other provision of this chapter, grants allocated to an issuer pursuant to this chapter (including program income derived therefrom) are authorized for use in the payment of principal and interest due (including such servicing, underwriting, or other costs as may be specified in regulations of the Secretary) on the notes or other obligations guaranteed pursuant to this section.

The obligations issued under this subsection shall have such maturities and bear such rate or rates of interest as shall be determined by the Secretary of the Treasury. The Secretary of the Treasury is authorized and directed to purchase any obligations of the Secretary issued under this section, and for such purposes is authorized to use as a public debt transaction the proceeds from the sale of any securities issued under chapter 31 of title 31, and the purposes for which such securities may be issued under such chapter are extended to include the purchases of the Secretary's obligations hereunder.

(h) Federal taxation of guaranteed obligations; grants to borrowing entity or agency of taxable obligations for net interest costs, etc.; limitation on amount of grant; assistance to issuer in hardship cases

The Secretary is authorized to make, and to contract to make, grants, in such amounts as may be approved in appropriations Acts, to or on behalf of the issuing eligible public entity or public agency to cover not to exceed 30 per centum of the net interest cost (including such servicing, underwriting, or other costs as may be specified in regulations of the Secretary) to the borrowing

entity or agency of such obligations. The Secretary may also, to the extent approved in appropriation Acts, assist the issuer of a note or other obligation guaranteed under this section in the payment of all or a portion of the principal and interest amount due under the note or other obligation, if the Secretary determines that the issuer is unable to pay the amount because of circumstances of extreme hardship beyond the control of the issuer.

(2) The Secretary shall monitor the use of guarantees under this section by eligible public entities. If the Secretary finds that 50 percent of the aggregate guarantee authority has been committed, the Secretary may—

(A) impose limitations on the amount of guarantees any one entity may receive in any fiscal year of \$35,000,000 for units of general local government receiving grants under section 5306(b) of this title and \$7,000,000 for units of general local government receiving grants under section 5306(d) of this title; or

AMENDMENTS

1984—Pub. L. 98-479 substituted "title II of the Independent Offices Appropriation Act, 1955 (Public Law 83-428; 68 Stat. 272, 295)" for "title II of the Independent Offices Appropriation Act of 1965 (Public Law 81-428; 68 Stat. 272, 295)".

§5318. Urban development action grants

(a) Authorization; purpose; amount

The Secretary is authorized to make urban development action grants to cities and urban counties which are experiencing severe economic distress to help stimulate economic development activity needed to aid in economic recovery. There are authorized to be appropriated to carry out this section \$225,000,000 for fiscal year 1988, and \$225,000,000 for fiscal year 1989. Any amount appropriated under this subsection shall remain available until expended.

(b) Eligibility of cities and urban counties; criteria and standards; regulations

(1) Urban development action grants shall be made only to cities and urban counties which have, in the determination of the Secretary, demonstrated results in providing housing for low- and moderate-income persons and in providing equal opportunity in housing and employment for low- and moderate-income persons and members of minority groups. The Secretary shall issue regulations establishing criteria in accordance with the preceding sentence and setting forth minimum standards for determining the level of economic distress of cities and urban counties for eligibility for such grants. These standards shall take into account factors such as the age of housing; the extent of poverty; the extent of population lag; growth of per capita income; and the extent of unemployment, job lag, or surplus labor. Any city that has a population of less than 50,000 persons and is not the central city of a metropolitan area, and that was eligible for fiscal year 1983 under this paragraph for assistance under this section, shall continue to be eligible for such assistance until the Secretary revises the standards for eligibility for such cities under this paragraph and includes the extent of unemployment, job lag, or labor surplus as a standard of distress for such cities. The Secretary shall make such revision as soon as practicable following November 30, 1983.

(2) A city or urban county which fails to meet the minimum standards established pursuant to paragraph (1) shall be eligible for assistance under this section if it meets the requirements of the first sentence of such paragraph and—

(A) in the case of a city with a population of fifty thousand persons or more or an urban county, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups, as defined by the United States Bureau of the Census, having at least a population of ten thousand persons or 10 per centum of the population of the city or urban county; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city or urban county; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level; or

(B) in the case of a city with a population of less than fifty thousand persons, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, neighborhood statistics areas, or block groups or other areas defined by the United States Bureau of the Census or for which data certified by the United States Bureau of the Census are available having at least a population of two thousand five hundred persons or 10 per centum of the population of the city, whichever is greater; (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of the city; and (iii) in which at least 30 per centum of the residents have incomes below the national poverty level.

The Secretary shall use up to, but not more than, 20 per centum of the funds appropriated for use in any fiscal year under this section for the purpose of making grants to cities and urban counties eligible under this paragraph.

(c) Applications; documentation of eligibility; proposed plan; assurance of notice and comment; assurance of consideration on historical landmarks

Applications for assistance under this section shall—

(1) in the case of an application for a grant under subsection (b)(2), include documentation of grant eligibility in accordance with the standards described in that subsection;

(2) set forth the activities for which assistance is sought, including (A) an estimate of the costs and general location of the activities; (B) a summary of the public and private resources which are expected to be made available in connection with the activities, including how the activities will take advantage of unique opportunities to attract private investment; and (C) an analysis of the economic benefits which the activities are expected to produce;

(3) contain a certification satisfactory to the Secretary that the applicant, prior to submission of its application, (A) has held public hearings to obtain the views of citizens, particularly residents of the area in which the proposed activities are to be carried out; (B) has analyzed the impact of these proposed activities on the residents, particularly those of low and moderate income, of the residential neighborhood, and on the neighborhood in which they are to be carried out; and (C) has made available the analysis described in clause (B) to any interested person or organization residing or located in the neighborhood in which the proposed activities are to be carried out; and

(4) contain a certification satisfactory to the Secretary that the applicant, prior to submission of its application, (A) has identified all properties, if any, which are included on the National Register of Historic Places and which, as determined by the applicant, will be affected by the project for which the application is made; (B) has identified all other properties, if any, which will be affected by such project and which, as determined by the applicant, may meet the criteria established by the Secretary of the Interior for inclusion on such Register, together with documentation relating to the inclusion of such properties on the Register; (C) has determined the effect, as determined by the applicant, of the project on the properties identified pursuant to clauses (A) and (B); and (D) will comply with the requirements of section 5320 of this title.

(d) Mandatory selection criteria; award of points; distribution of funds; number of competitions per year; use of distress conditions data by urban counties

(1) Except in the case of a city or urban county eligible under subsection (b)(2), the Secretary shall establish selection criteria for a national competition for grants under this section which must include—

(A) the comparative degree of economic distress among applicants, as measured (in the case of a metropolitan city or urban county) by the differences in the extent of growth lag, the extent of poverty, and the adjusted age of housing in the metropolitan city or urban county;

(B) other factors determined to be relevant by the Secretary in assessing the comparative degree of economic deterioration in cities and urban counties;

(C) the following other criteria:

(i) the extent to which the grant will stimulate economic recovery by leveraging private investment;

(ii) the number of permanent jobs to be created and their relation to the amount of grant funds requested;

(iii) the proportion of permanent jobs accessible to lower income persons and minorities, including persons who are unemployed;

(iv) the extent to which the project will retain jobs that will be lost without the provision of a grant under this section;

(v) the extent to which the project will relieve the most pressing employment or residential needs of the applicant by—

(I) reemploying workers in a skill that has recently suffered a sharp increase in unemployment locally;

(II) retraining recently unemployed residents in new skills;

(III) providing training to increase the local pool of skilled labor; or

(IV) producing decent housing for low- and moderate-income persons in cases where such

housing is in severe shortage in the area of the applicant, except that an application shall be considered to produce housing for low- and moderate-income persons under this clause only if such application proposes that (a) not less than 51 percent of all funds available for the project shall be used for dwelling units and related facilities; and (b) not less than 30 percent of all funds used for dwelling units and related facilities shall be used for dwelling units to be occupied by persons of low and moderate income, or not less than 20 percent of all dwelling units made available to occupancy using such funds shall be occupied by persons of low and moderate income, whichever results in the occupancy of more dwelling units by persons of low and moderate income;

(vi) the impact of the proposed activities on the fiscal base of the city or urban county and its relation to the amount of grant funds requested;

(vii) the extent to which State or local Government ¹ funding or special economic incentives have been committed; and

(viii) the extent to which the project will have a substantial impact on physical and economic development of the city or urban county, the proposed activities are likely to be accomplished in a timely fashion with the grant amount available, and the city or urban county has demonstrated performance in housing and community development programs; and

(D) additional consideration for projects with the following characteristics:

(i) projects to be located within a city or urban county which did not receive a preliminary grant approval under this section during the 12-month period preceding the date on which applications are required to be submitted for the grant competition involved; and

(ii) twice the amount of the additional consideration provided under clause (i) for projects to be located in cities or urban counties which did not receive a preliminary grant approval during the 24-month period preceding the date on which applications under this section are required to be submitted for the grant competition involved.

If a city or urban county has submitted and has pending more than one application, the additional consideration provided by subparagraph (D) of the preceding sentence shall be available only to the project in such city or urban county which received the highest number of points under subparagraph (C) of such sentence.

(2) For the purpose of making grants with respect to areas described in subsection (b)(2), the Secretary shall establish selection criteria, which must include (A) factors determined to be relevant by the Secretary in assessing the comparative degree of economic deterioration among eligible areas, and (B) such other criteria as the Secretary may determine, including at a minimum the criteria listed in paragraph (1)(C) of this subsection.

(3) The Secretary shall award points to each application as follows:

(A) not more than 35 points on the basis of the criteria referred to in paragraph (1)(A);

(B) not more than 35 points on the basis of the criteria referred to in paragraph (1)(B);

(C) not more than 33 points on the basis of the criteria referred to in paragraph (1)(C); and

(D)(i) 1 additional point on the basis of the criterion referred to in paragraph (1)(D)(i); or

(ii) 2 additional points on the basis of the criterion referred to in paragraph (1)(D)(ii).

(4) The Secretary shall distribute grant funds under this section so that to the extent practicable during each funding cycle—

(A) 65 percent of the funds is first made available utilizing all of the criteria set forth in paragraph (1); and

(B) 35 percent of the funds is then made available solely on the basis of the factors referred to in subparagraphs (C) and (D) of paragraph (1).

(5)(A) Within 30 days of the start of each fiscal year, the Secretary shall announce the number of

competitions for grants to be held in that fiscal year. The number of competitions shall be not less than two nor more than three.

(B) Each competition for grants described in any clause of subparagraph (A) shall be for an amount equal to the sum of—

- (i) approximately the amount of the funds available for such grants for the fiscal year divided by the number of competitions for those funds;
- (ii) any funds available for such grants in any previous competition that are not awarded; and
- (iii) any funds available for such grants in any previous competition that are recaptured.

(C) Notwithstanding any other provision of this section, in each competition for grants under this section, no city or urban county may be awarded a grant or grants in an amount in excess of \$10,000,000 until all cities and urban counties which submitted fundable applications have been awarded a grant. If funds are available for additional grants after each city and urban county submitting a fundable application is awarded one or more grants under the preceding sentence, then additional grants shall be made so that each city or urban county that has submitted multiple applications is awarded one additional grant in order of ranking, with no single city or urban county receiving more than one grant approval in any subsequent series of grant determinations within the same competition.

(D) All grants under this section, including grants to cities and urban counties described in subsection (b)(2), shall be awarded in accordance with subparagraph (C) so that all grants under this section are made in order of ranking.

(e) Limitations on power of Secretary to approve grants; waiver

The Secretary may not approve any grant to a city or urban county eligible under subsection (b)(2) unless—

- (1) the grant will be used in connection with a project located in an area described in subsection (b)(2), except that the Secretary may waive this requirement where the Secretary determines (A) that there is no suitable site for the project within that area, (B) the project will be located directly adjacent to that area, and (C) the project will contribute substantially to the economic development of that area;
- (2) the city or urban county has demonstrated to the satisfaction of the Secretary that basic services supplied by the city or urban county to the area described in subsection (b)(2) are at least equivalent, as measured by per capita expenditures, to those supplied to other areas within the city or urban county which are similar in population size and physical characteristics and which have median incomes above the median income for the city or urban county;
- (3) the grant will be used in connection with a project which will directly benefit the low- and moderate-income families and individuals residing in the area described in subsection (b)(2); and
- (4) the city or urban county makes available, from its own funds or from funds received from the State or under any Federal program which permits the use of financial assistance to meet the non-Federal share requirements of Federal grant-in-aid programs, an amount equal to 20 per centum of the grant to be available under this section to be used in carrying out the activities described in the application.

(f) Permissibility of consistent but unenumerated activities; report on use of repaid grant funds for economic development activities

Activities assisted under this section may include such activities, in addition to those authorized under section 5305(a) of this title, as the Secretary determines to be consistent with the purposes of this section. In any case in which the project proposes the repayment to the applicant of the grant funds, such funds shall be made available by the applicant for economic development activities that are eligible activities under this section or section 5305 of this title. The applicant shall annually provide the Secretary with a statement of the projected receipt and use of repaid grant funds during the next year together with a report acceptable to the Secretary on the use of such funds during the most recent preceding full fiscal year of the applicant.

(g) Annual review and audit; adjustments, withdrawals and reduction permitted

The Secretary shall, at least on an annual basis, make reviews and audits of recipients of grants under this section as necessary to determine the progress made in carrying out activities substantially in accordance with approved plans and timetables. The Secretary may adjust, reduce, or withdraw grant funds, or take other action as appropriate in accordance with the findings of these reviews and audits, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future grants made to the recipient.

(h) Limitations on grants for industrial or commercial relocations or expansions; appeal of denial or cancellation of assistance; grants to adversely affected individuals

(1) Speculative projects

No assistance may be provided under this section for projects intended to facilitate the relocation of industrial or commercial plants or facilities from one area to another, unless the Secretary finds that the relocation does not significantly and adversely affect the unemployment or economic base of the area from which the industrial or commercial plant or facility is to be relocated. The provisions of this paragraph shall apply only to projects that do not have identified intended occupants.

(2) Projects with identified intended occupants

No assistance may be provided or utilized under this section for any project with identified intended occupants that is likely to facilitate—

(A) a relocation of any operation of an industrial or commercial plant or facility or other business establishment—

(i) from any city, urban county, or identifiable community described in subsection (p), that is eligible for assistance under this section; and

(ii) to the city, urban county, or identifiable community described in subsection (p), in which the project is located; or

(B) an expansion of any such operation that results in a reduction of any such operation in any city, county, or community described in subparagraph (A)(i).

(3) Significant and adverse effect

The restrictions established in paragraph (2) shall not apply if the Secretary determines that the relocation or expansion does not significantly and adversely affect the employment or economic base of the city, county, or community from which the relocation or expansion occurs.

(4) Appeal of adverse determination

Following notice of intent to withhold, deny, or cancel assistance under paragraph (1) or (2), the Secretary shall provide a period of not less than 90 days in which the applicant can appeal to the Secretary the withholding, denial, or cancellation of assistance. Notwithstanding any other provision of this section, nothing in this section or in any legislative history related to the enactment of this section may be construed to permit an inference or conclusion that the policy of the Congress in the urban development action grant program is to facilitate the relocation of businesses from one area to another.

(5) Assistance for individuals adversely affected by prohibited relocations

(A) Any amount withdrawn by, recaptured by, or paid to the Secretary due to a violation (or a settlement of an alleged violation) of this subsection (or of any regulation issued or contractual provision entered into to carry out this subsection) by a project with identified intended occupants shall be made available by the Secretary as a grant to the city, county, or community described in subsection (p), from which the operation of an industrial or commercial plant or facility or other business establishment relocated or in which the operation was reduced.

(B)(i) Any amount made available under this paragraph shall be used by the grantee to assist individuals who were employed by the operation involved prior to the relocation or reduction and whose employment or terms of employment were adversely affected by the relocation or reduction. The assistance shall include job training, job retraining, and job placement.

(ii) If any amount made available to a grantee under this paragraph is more than is required to provide assistance under clause (i), the grantee shall use the excess amount to carry out community development activities eligible under section 5305(a) of this title.

(C)(i) The provisions of this paragraph shall be applicable to any amount withdrawn by, recaptured by, or paid to the Secretary under this section, including any amount withdrawn, recaptured, or paid before the effective date of this paragraph.

(ii) Grants may be made under this paragraph only to the extent of amounts provided in appropriation Acts.

(6) Definition

For purposes of this subsection, the term "operation" includes any plant, equipment, facility, position, employment opportunity, production capacity, or product line.

(7) Regulations

Not later than 60 days after February 5, 1988, the Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection. Such regulations shall include specific criteria to be used by the Secretary in determining whether there is a significant and adverse effect under paragraph (3).

(i) Minimum percentage of funds to be allocated to certain noncentral cities; application by consortia of cities of less than 50,000 population

Not less than 25 per centum of the funds made available for grants under this section shall be used for cities with populations of less than fifty thousand persons which are not central cities of a metropolitan statistical area. The Secretary shall encourage cooperation by geographically proximate cities of less than 50,000 population by permitting consortia of such cities, which may also include county governments that are not urban counties, to apply for grants on behalf of a city that is otherwise eligible for assistance under this section. Any grants awarded to such consortia shall be administered in compliance with eligibility requirements applicable to individual cities.

(j) Grant contingent on factors related to non-Federal funds

A grant may be made under this section only where the Secretary determines that there is a strong probability that (1) the non-Federal investment in the project would not be made without the grant, and (2) the grant would not substitute for non-Federal funds which are otherwise available to the project.

(k) Duty of Secretary to minimize amount

In making grants under this section, the Secretary shall take such steps as the Secretary deems appropriate to assure that the amount of the grant provided is the least necessary to make the project feasible.

(l) Power of Secretary to waive requirement that town or township be closely settled

For purposes of this section, the Secretary may reduce or waive the requirement in section 5302(a)(5)(B)(ii) of this title that a town or township be closely settled.

(m) Notice to State historic preservation officer and Secretary of the Interior required with regard to affected landmark property; opportunity for comment

In the case of any application which identifies any property in accordance with subsection (c)(4)(B), the Secretary may not commit funds with respect to an approved application unless the applicant has certified to the Secretary that the appropriate State historic preservation officer and the Secretary of the Interior have been provided an opportunity to take action in accordance with the provisions of section 5320(b) of this title.

(n) Territories, tribes, and certain Hawaiian counties included in term "city"

(1) For the purposes of this section, the term "city" includes Guam, American Samoa, the Northern Mariana Islands, the Virgin Islands, and Indian tribes. Such term also includes the counties of Kauai, Maui and Hawaii in the State of Hawaii.

(2) The Secretary may not approve a grant to an Indian tribe under this section unless the tribe (A) is located on a reservation, or on former Indian reservations in Oklahoma as determined by the Secretary of the Interior, or in an Alaskan Native Village, and (B) was an eligible recipient under chapter 67 of title 31 prior to the repeal of such chapter.

(o) Special provisions for years after 1983

If no amounts are set aside under, or amounts are precluded from being appropriated for this section for fiscal years after fiscal year 1983, any amount which is or becomes available for use under this section after fiscal year 1983 shall be added to amounts appropriated under section 5303 of this title, except that amounts available to the Secretary for use under this subsection as of October 1, 1993, and amounts released to the Secretary pursuant to subsection (t) may be used to provide grants under section 5308(q) of this title..²

(p) Unincorporated portions of urban counties

An unincorporated portion of an urban county that is approved by the Secretary as an identifiable community for purposes of this section is eligible for a grant under subsection (b)(2) if such portion meets the eligibility requirements contained in the first sentence of subsection (b)(1) and the requirements of subsection (b)(2)(B) (applied to the population of the portion of the urban county) and if it otherwise complies with the provisions of this section.

(q) Technical assistance grants

Of the amounts appropriated for purposes of this section for any fiscal year, not more than \$2,500,000 may be used by the Secretary to make technical assistance grants to States or their agencies, municipal technical advisory services operated by universities, or State associations of counties or municipalities, to enable such entities to assist units of general local government described in subsection (i) in developing, applying for assistance for, and implementing programs eligible for assistance under this section.

(r) Nondiscrimination by Secretary against type of activity or applicant

In utilizing the discretion of the Secretary when providing assistance and applying selection criteria under this section, the Secretary may not discriminate against applications on the basis of (1) the type of activity involved, whether such activity is primarily housing, industrial, or commercial; or (2) the type of applicant, whether such applicant is a city or urban county.

(s) Maximum grant amount for fiscal years 1988 and 1989

For fiscal years 1988 and 1989, the maximum grant amount for any project under this section is \$10,000,000.

(t) UDAG retention program

If a grant or a portion of a grant under this section remains unexpended upon the issuance of a notice implementing this subsection, the grantee may enter into an agreement, as provided under this subsection, with the Secretary to receive a percentage of the grant amount and relinquish all claims to the balance of the grant within 90 days of the issuance of notice implementing this subsection (or such later date as the Secretary may approve). The Secretary shall not recapture any funds obligated pursuant to this section during a period beginning on April 11, 1994, until 90 days after the issuance of a notice implementing this subsection. A grantee may receive as a grant under this subsection—

(1) 33 percent of such unexpended amounts if—

(A) the grantee agrees to expend not less than one-half of the amount received for activities authorized pursuant to section 5308(q) of this title and to expend such funds in conjunction with a loan guarantee made under section 5308 of this title at least equal to twice the amount of the funds received; and

(B)(i) the remainder of the amount received is used for economic development activities eligible under this chapter; and

(ii) except when waived by the Secretary in the case of a severely distressed jurisdiction, not more than one-half of the costs of activities under subparagraph (B) are derived from such unexpended amounts; or

(2) 25 percent of such unexpended amounts if—

(A) the grantee agrees to expend such funds for economic development activities eligible under this chapter; and

(B) except when waived by the Secretary in the case of a severely distressed jurisdiction, not more than one-half of the costs of such activities are derived from such unexpended amount.
